(57) **CLAIM**

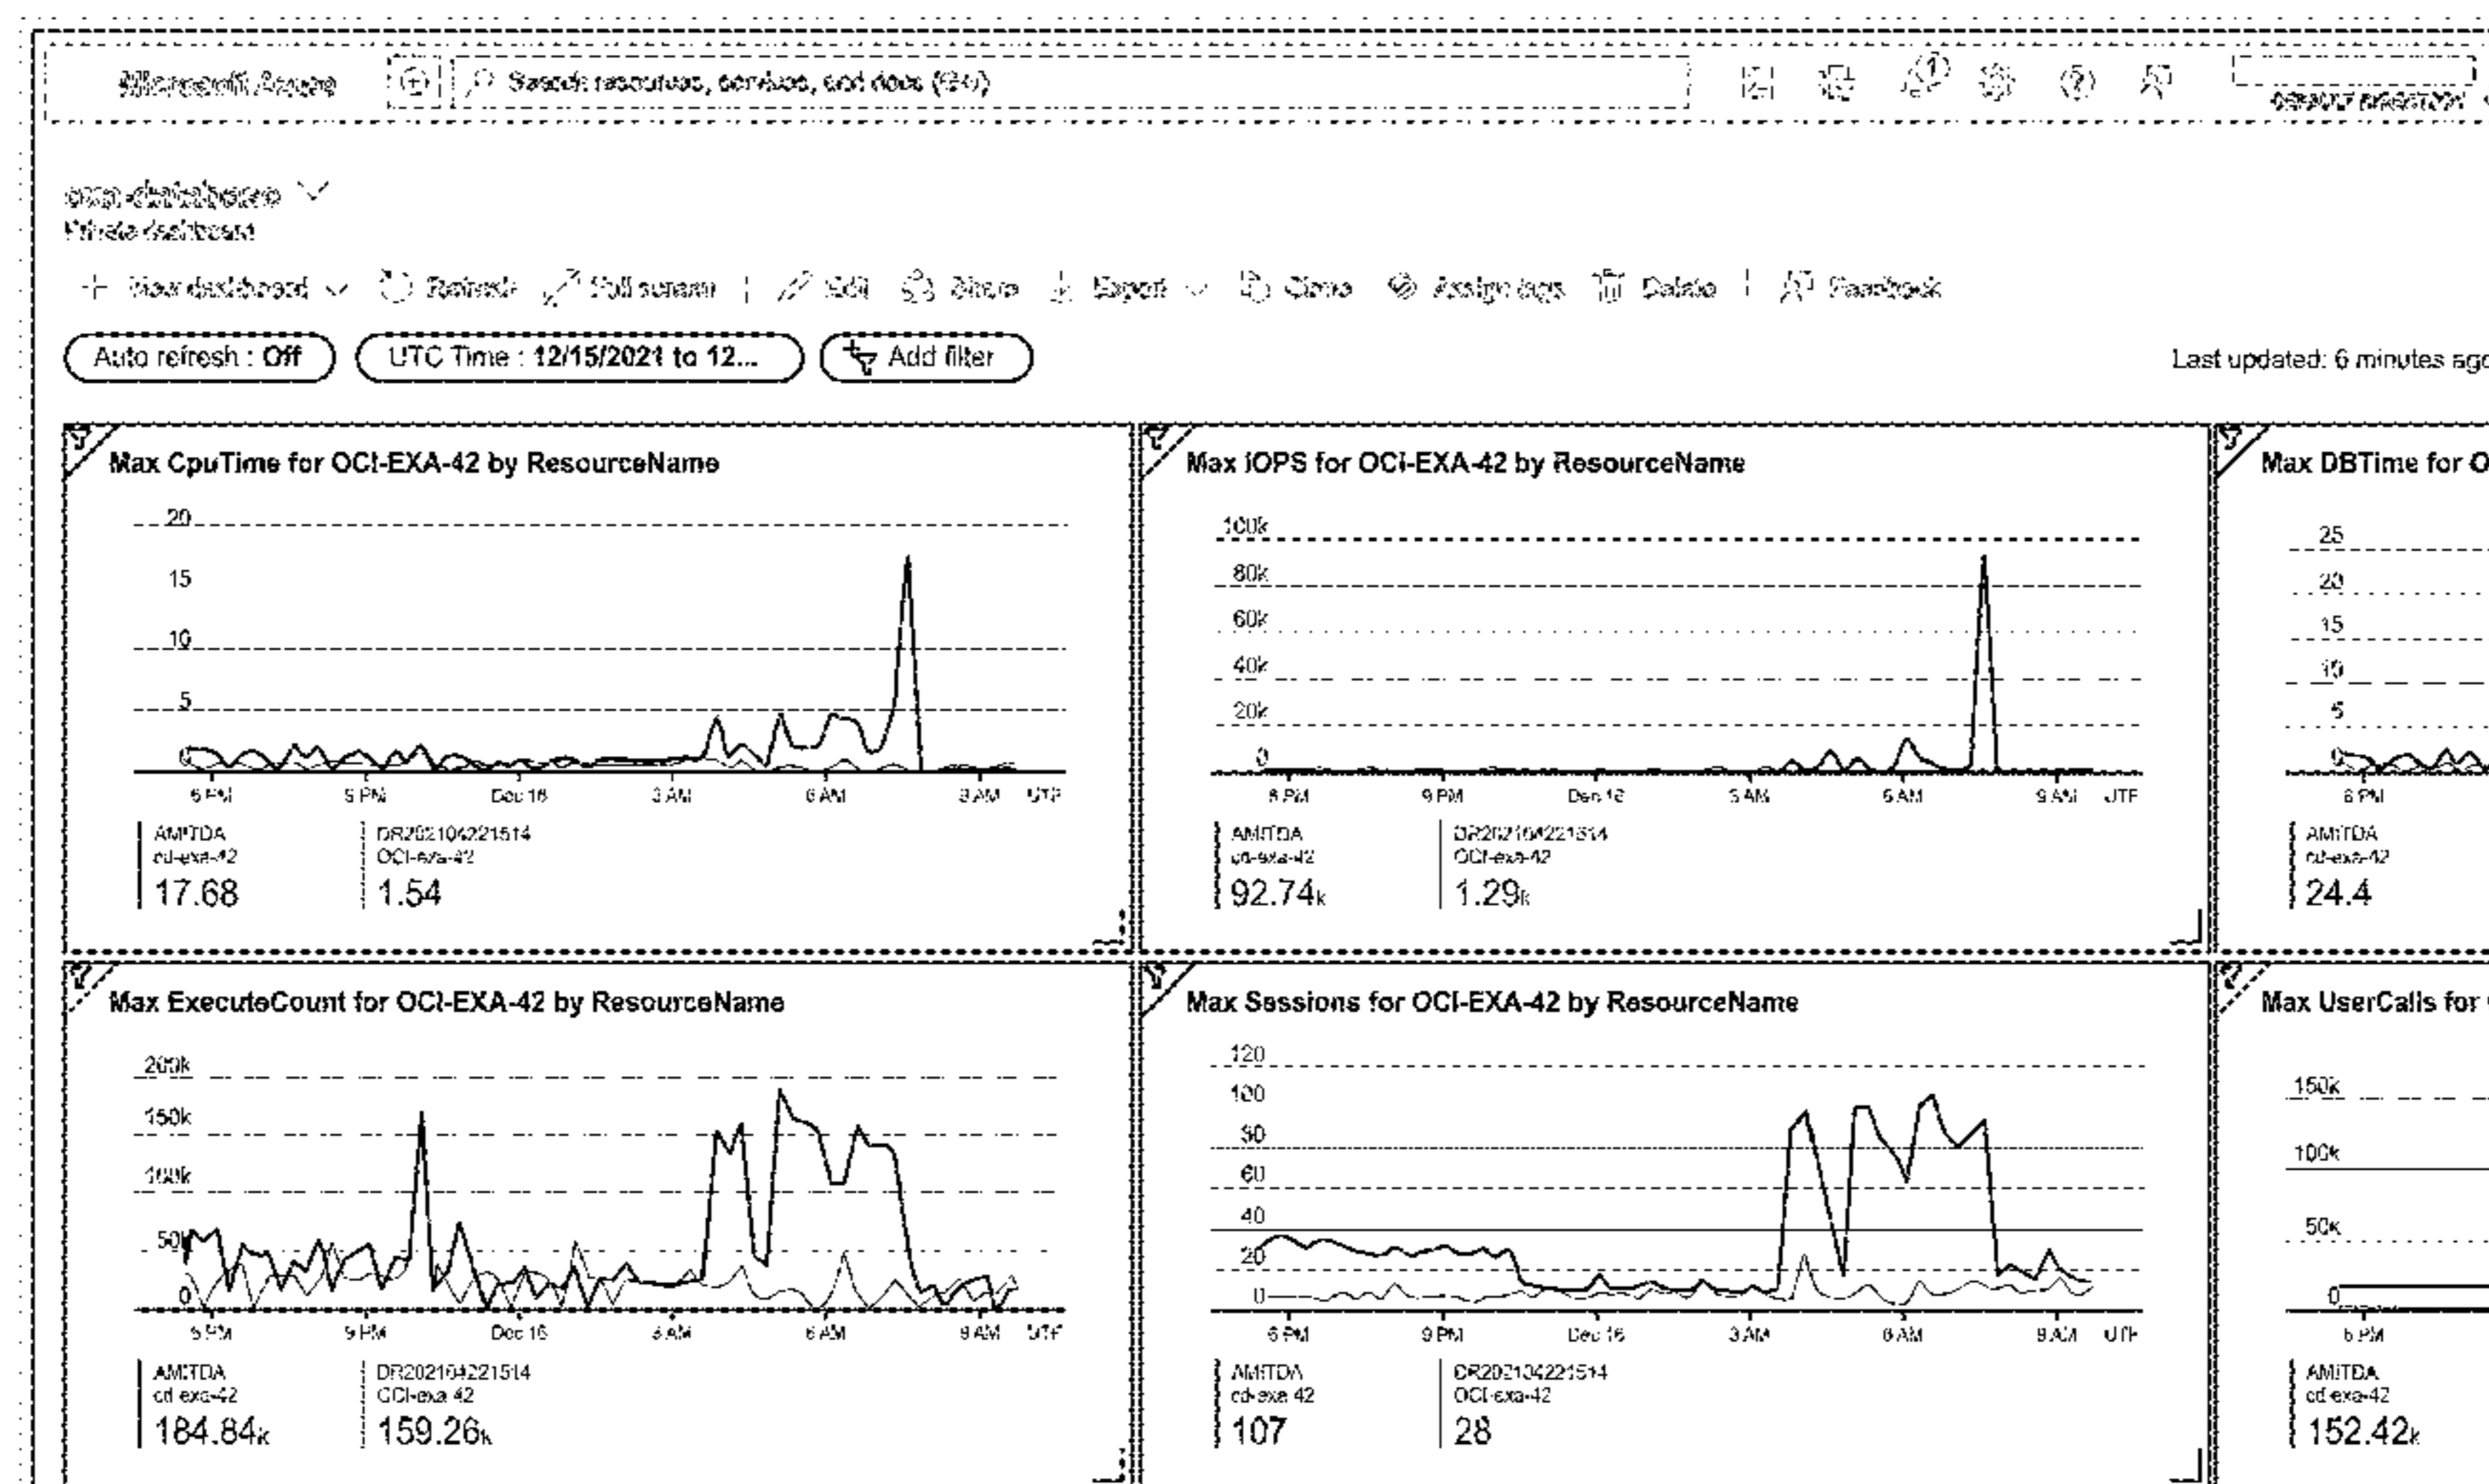

The ornamental design for a display screen or portion thereof with graphical user interface for monitoring database activities, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen or portion thereof with graphical user interface for monitoring database activities showing our new design.

The outermost broken line rectangle shows a display screen or a portion thereof and the boundary of the display screen or a portion thereof and forms no part of the claimed design. The remaining broken lines showing portions of the graphical user interface, text, and characters form no part of the claimed design.

1 Claim, 1 Drawing Sheet
