(57) **CLAIM**

The ornamental design for an electronic device with display screen and transitional search graphical user interface as shown and described.

DESCRIPTION

FIG. 1 is a first view of an electronic device with display screen and transitional search graphical user interface. FIG. 2 is a second view thereof; and, FIG. 3 is a third view thereof. The appearance of the transitional image transitions between the images shown in FIGS. 1, 2, and 3. The progress period in which one image transitions to another image forms no part of the claimed design. The dot-dashed lines show the boundary of the claimed design and form no part of the claimed design. The even-dashed broken lines showing the electronic device with display screen and transitional search graphical user interface, icons, and text illustrate portions of the article of manufacture that form no part of the claimed design.
