The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.
FIG. 1 shows a front view of a first image of a portion of a display panel with a graphical user interface; and, FIG. 2 shows a second image thereof.
The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. No ornamental aspects are associated with the process or period in which one image transitions to another image.

(Continued)

The outermost broken lines showing a portion of a display panel form no part of the claim. The broken line showing of portions of the graphical user interface form no part of the claimed design.
