(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains a drawing executed in color. Copies of this patent or patent application publication with color drawing will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a front view of a display screen or portion thereof with graphical user interface showing our new design.

The outermost dash-dash broken lines in the FIGURE show a display screen or portion thereof, and form no part of the claimed design. The dot-dash broken lines represent boundaries of the claimed design, the claimed design comprising all of the color elements located within the boundaries, including the white-colored element at the far left. The other broken lines in the FIGURE show portions of the graphical user interface that form no part of the claimed design.
