(57) **CLAIM**

The ornamental design for a display device with graphical user interface having a strategy card as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a display device with graphical user interface having a strategy card according to the invention; and,

FIG. 2 is a second image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost even-dashed broken lines in the drawings show the display device and forms no part of the claimed design.

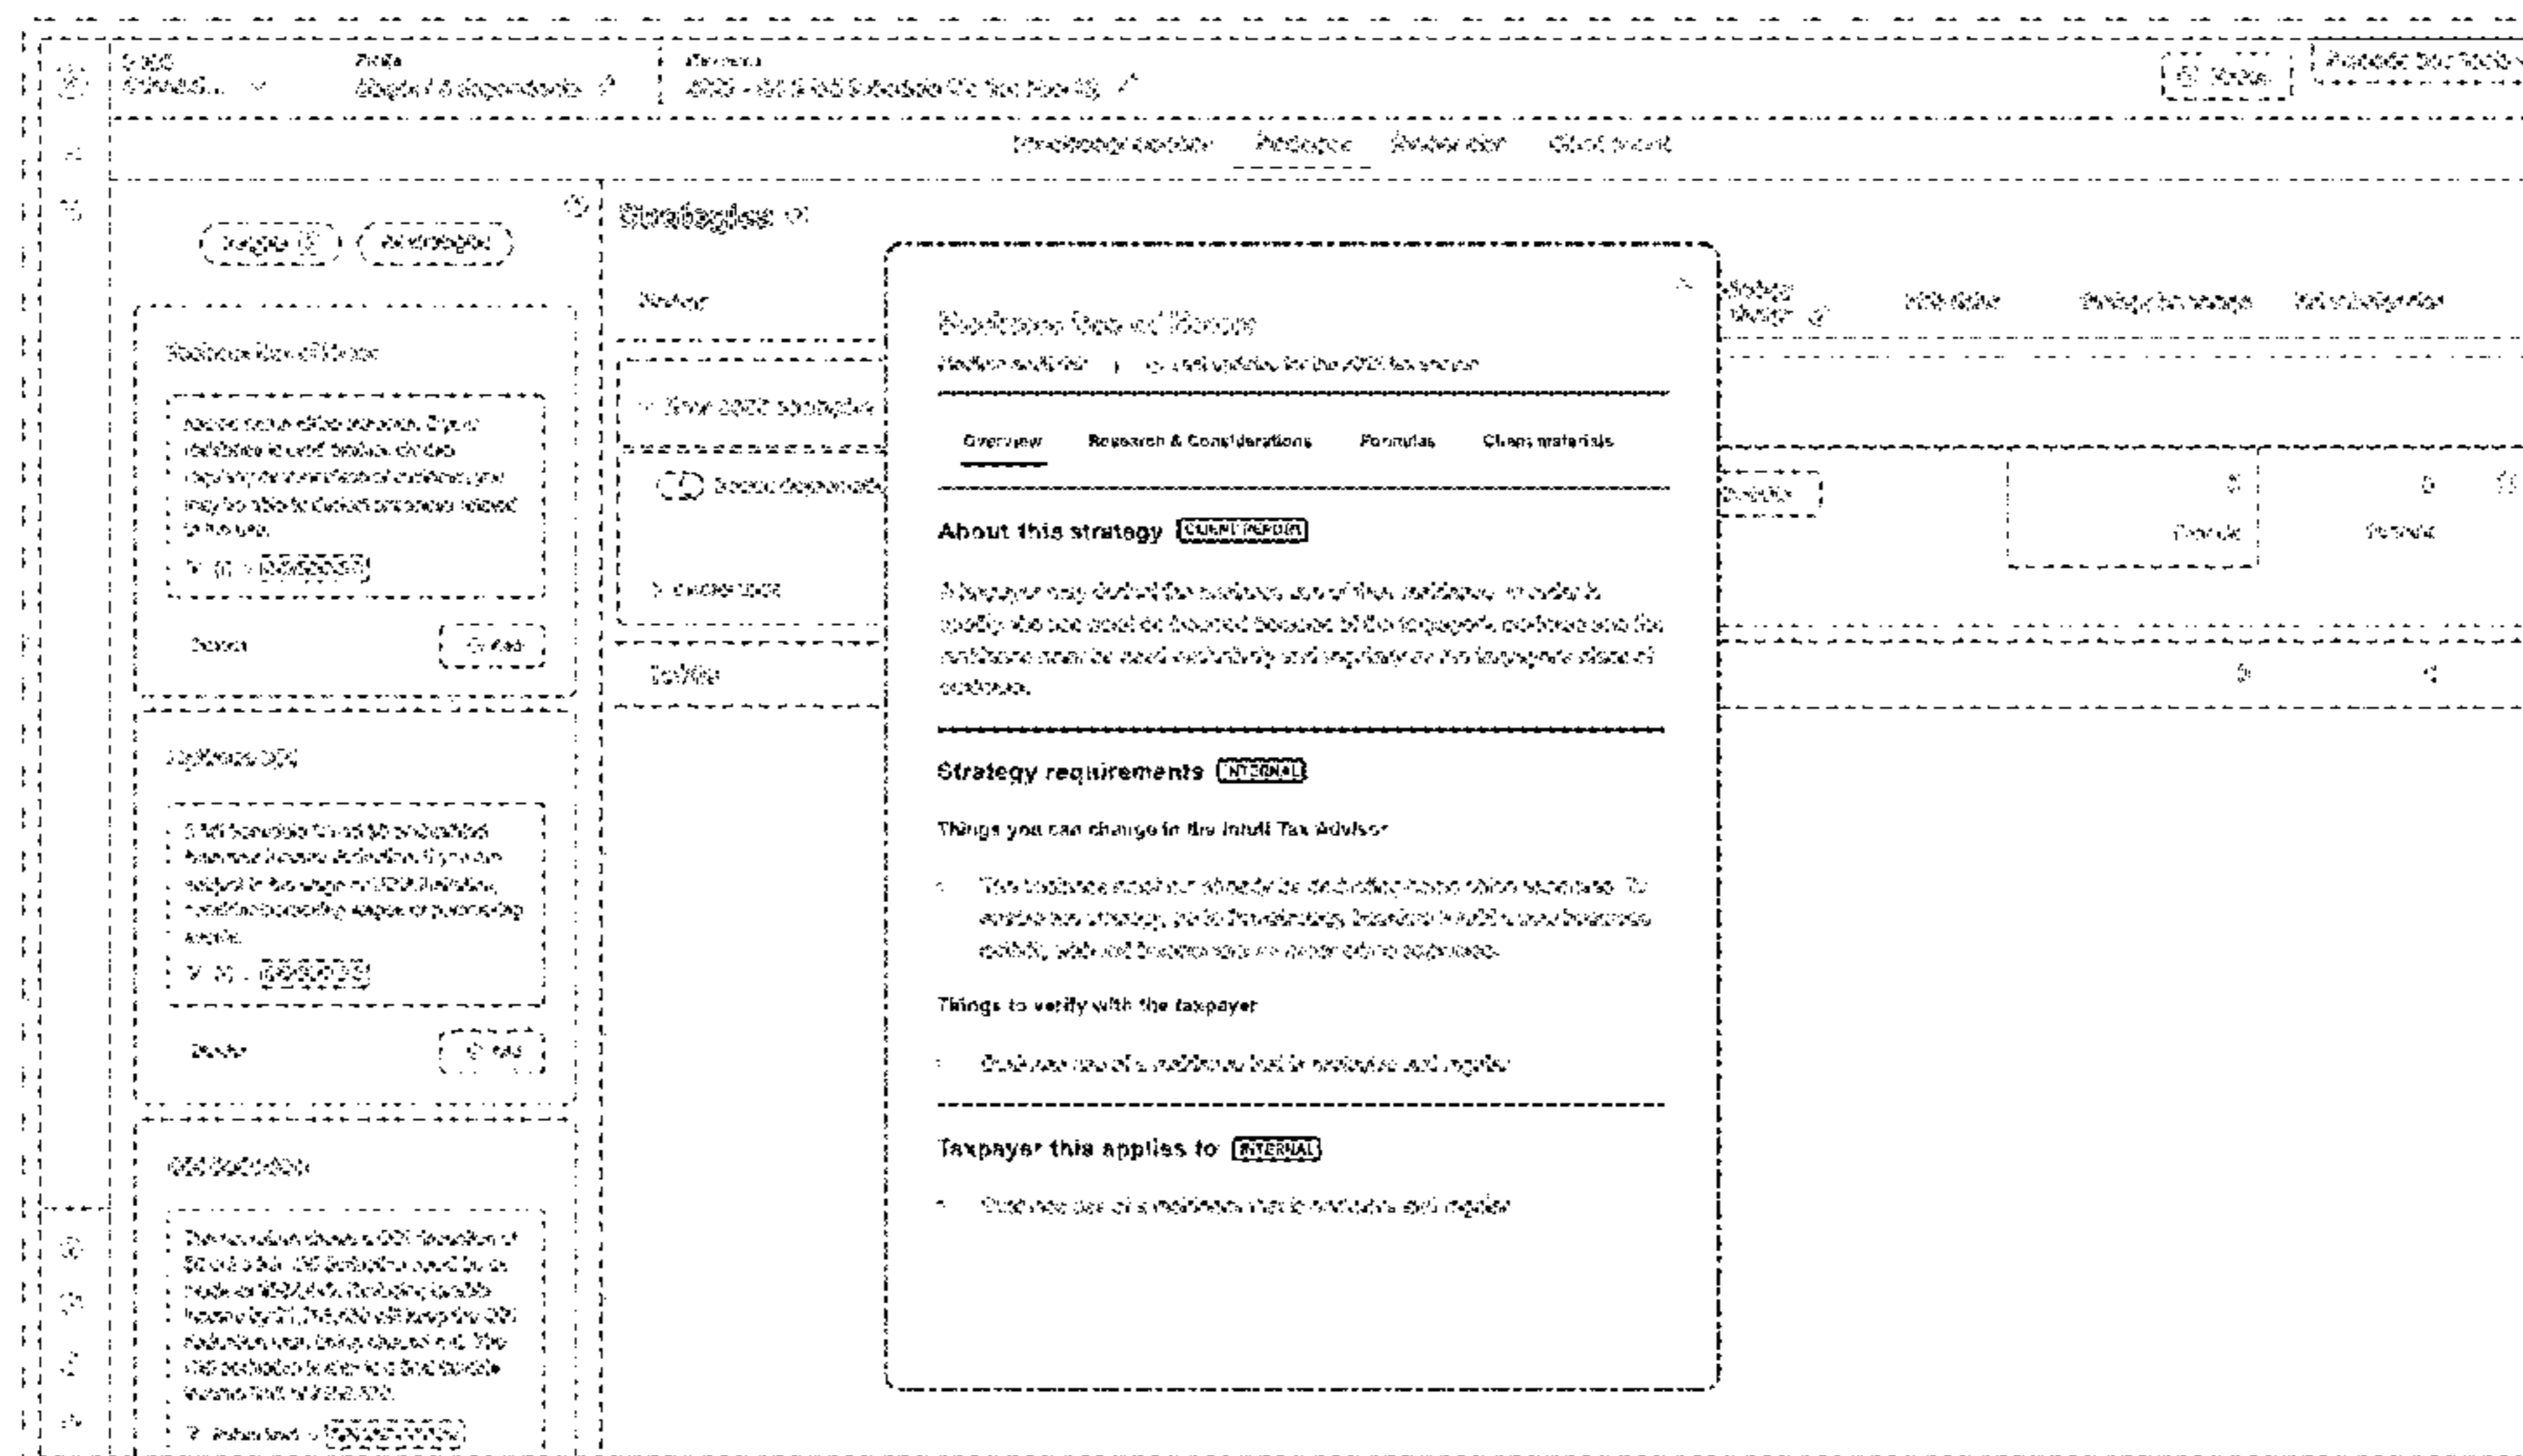

The dot-dashed broken lines form no part of the claimed design. The remaining broken lines showing text and portions of the graphical user interface form no part of the claimed design.
