(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen with an animated graphical user interface showing the claimed design; and, FIG. 2 is a front view of a second image thereof. The outermost broken lines illustrate an electronic device, which is the environment of the design, and a display screen and form no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design. The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-2. The process or period in which an image transitions to another forms no part of the claimed design.
