FIG. 1 is a front view of a first image of a display device with graphical user interface showing a custom strategy according to the invention; and,

FIG. 2 is a second image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which one image transitions to another image forms no part of the claimed design.

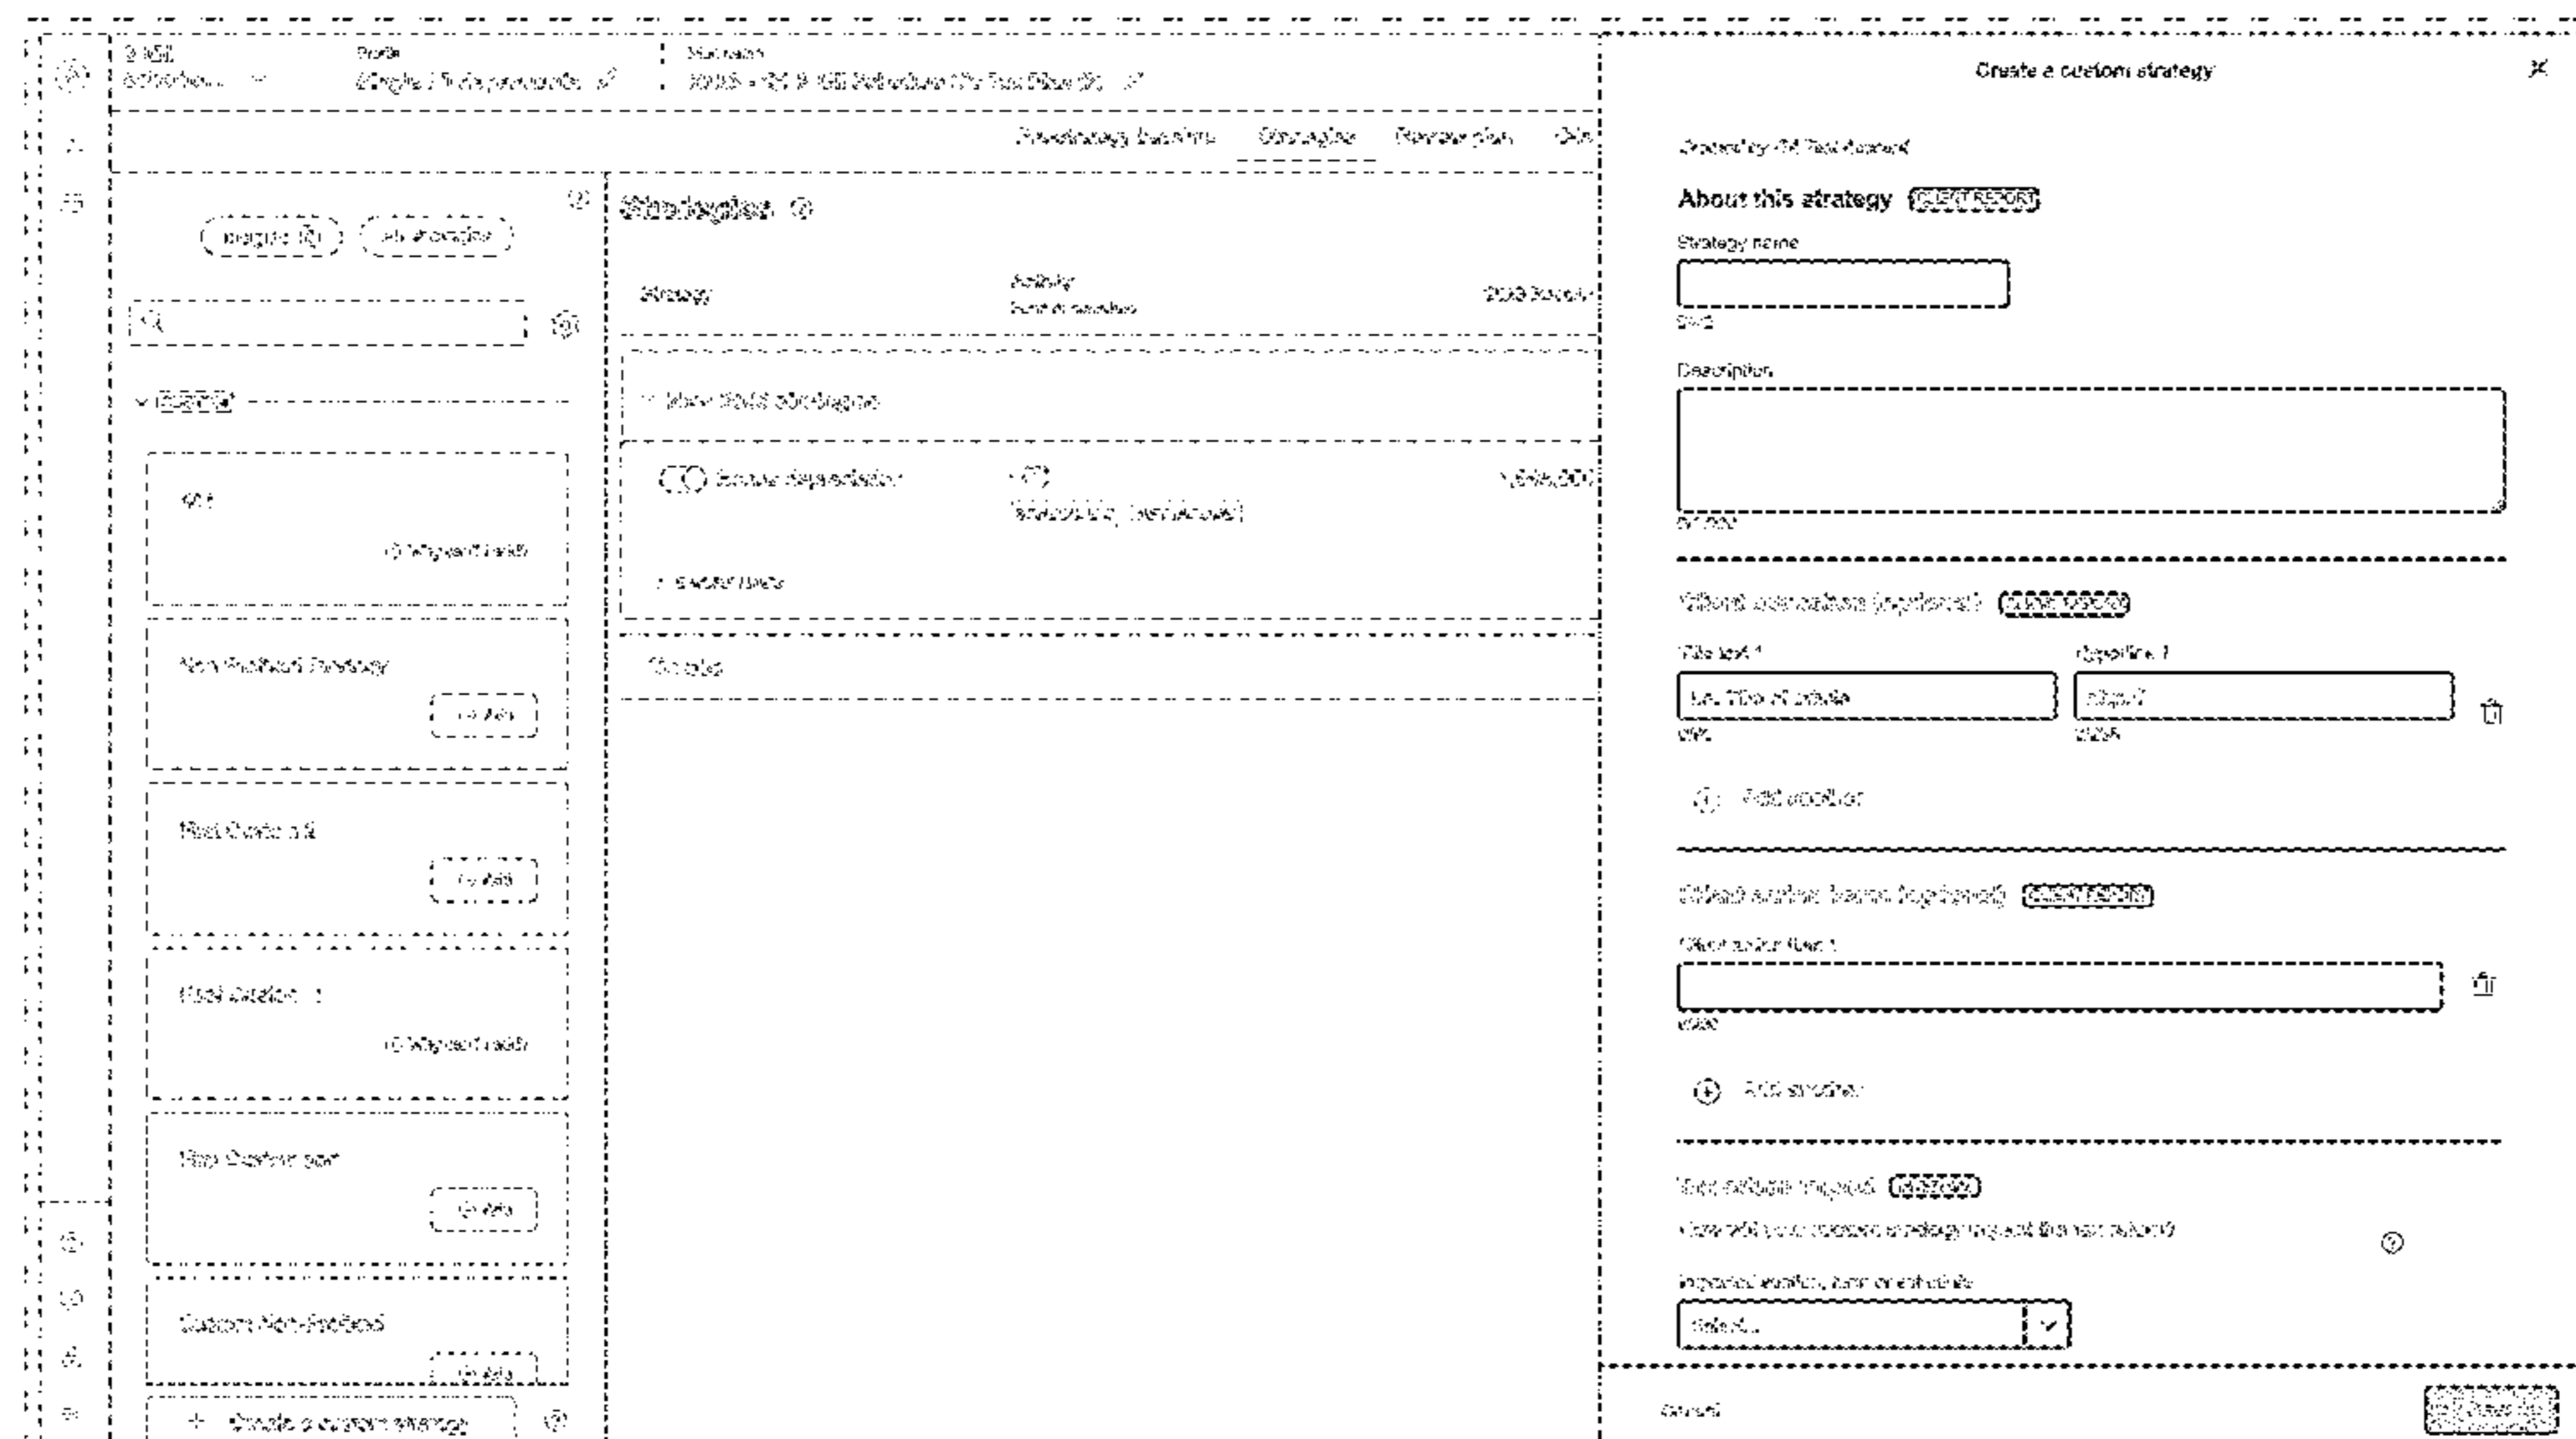

The outermost even-dashed broken lines in the drawings show the display device and forms no part of the claimed design. The dot-dashed broken lines illustrate the bounds of the claim and form no part of the claimed design. The remaining broken lines showing text and portions of the graphical user interface form no part of the claimed design.
