(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen or portion thereof with transitional graphical user interface, showing our new design in accordance with a first embodiment;

FIG. 2 is the second image thereof;

FIG. 3 is the third image thereof;

FIG. 4 is the first image in a sequence for a display screen or portion thereof with transitional graphical user interface, showing our new design in accordance with a second embodiment;

FIG. 5 is the second image thereof; and,

FIG. 6 is the third image thereof.

The outer perimeter broken lines in the drawings represent a display screen or portion thereof and form no part of the claimed design. The remaining broken lines in the drawings illustrate portions of the transitional graphical user interface that form no part of the claimed design.

The appearance of the images sequentially transitions between the images shown in FIGS. 1-3, and 4-6, respectively. The process or period in which one image transitions to another image forms no part of the claimed design. The contrast shown in grayscale in the drawings represents a contrast of appearance.
