FIG. 1 is a front view of a first image in a first sequence or a display screen with animated graphical user interface showing our new design; and, FIG. 2 is a front view of a second image thereof. The outermost broken lines illustrate a display screen and form no part of the claimed design. The remaining broken lines, including all text, illustrate portions of the graphical user interface that form no part of the claimed design. The appearance of the animated graphical user interface transitions sequentially between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.
