(57) CLAIM

The ornamental design for an electronic cigarette, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, left side perspective view of an electronic cigarette, according to a first embodiment of the present application;

FIG. 2 is a bottom, front, left side perspective view of the electronic cigarette of FIG. 1, according to the first embodiment of the present application;

FIG. 3 is a left side elevation view of the electronic cigarette of FIG. 1, according to the first embodiment of the present application;

FIG. 4 is a right side elevation view of the electronic cigarette of FIG. 1, according to the first embodiment of the present application;

FIG. 5 is a front elevation view of the electronic cigarette of FIG. 1, according to the first embodiment of the present application;

FIG. 6 is a rear elevation view of the electronic cigarette of FIG. 1, according to the first embodiment of the present application;

FIG. 7 is a top plan view of the electronic cigarette of FIG. 1, according to the first embodiment of the present application;

FIG. 8 is a bottom plan view of the electronic cigarette of FIG. 1, according to the first embodiment of the present application;

(Continued)

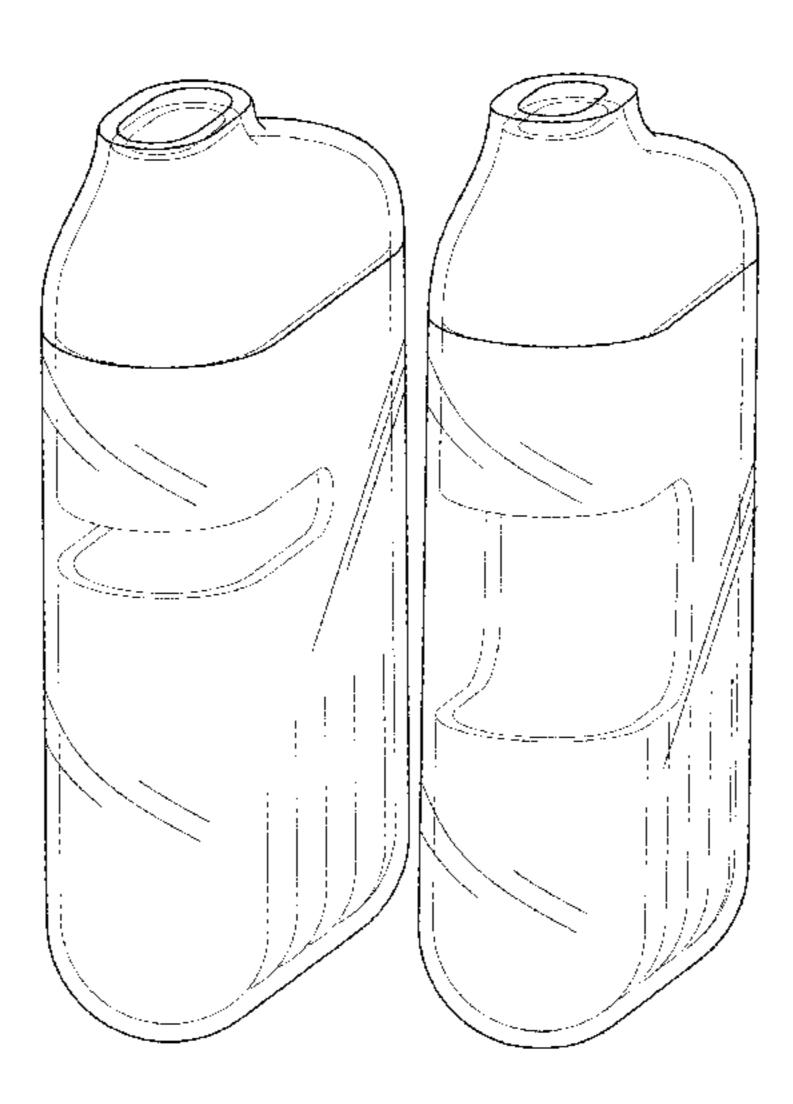

FIG. 9 is a top, front, left side perspective view of an electronic cigarette, according to a second embodiment of the present application;

FIG. 10 is a bottom, front, left side perspective view of the electronic cigarette of FIG. 9, according to the second embodiment of the present application;

FIG. 11 is a left side elevation view of the electronic cigarette of FIG. 9, according to the second embodiment of the present application;

FIG. 12 is a right side elevation view of the electronic cigarette of FIG. 9, according to the second embodiment of the present application;

FIG. 13 is a front elevation view of the electronic cigarette of FIG. 9, according to the second embodiment of the present application;

FIG. 14 is a rear elevation view of the electronic cigarette of FIG. 9, according to the second embodiment of the present application;

FIG. 15 is a top plan view of the electronic cigarette of FIG. 9, according to the second embodiment of the present application;

FIG. 16 is a bottom plan view of the electronic cigarette of FIG. 9, according to the second embodiment of the present application;

FIG. 17 is a top, front, left side perspective view of an electronic cigarette, according to a third embodiment of the present application;

FIG. 18 is a bottom, front, left side perspective view of the electronic cigarette of FIG. 17, according to the third embodiment of the present application;

FIG. 19 is a left side elevation view of the electronic cigarette of FIG. 17, according to the third embodiment of the present application;

FIG. 20 is a right side elevation view of the electronic cigarette of FIG. 17, according to the third embodiment of the present application;

FIG. 21 is a front elevation view of the electronic cigarette of FIG. 17, according to the third embodiment of the present application;

FIG. 22 is a rear elevation view of the electronic cigarette of FIG. 17, according to the third embodiment of the present application;

FIG. 23 is a top plan view of the electronic cigarette of FIG. 17, according to the third embodiment of the present application; and,

FIG. 24 is a bottom plan view of the electronic cigarette of FIG. 17, according to the third embodiment of the present application.

The broken lines in the drawings depict portions of the electronic cigarette that form no part of the claimed design.
