The ornamental design for a display device with graphical user interface having a toggle widget as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a display device with graphical user interface having the toggle widget according to the invention; and,
FIG. 2 is a second image thereof.

The stippling in the drawings shows a contrast in appearance.
The outer even-dashed broken line showing an electronic device is for environmental purposes and forms no part of the claimed design. The smaller dashed broken line rectangle immediately adjacent to the outer even-dashed broken line shows the display screen and forms no part of the claimed design. The remaining broken line showing of portions of the graphical user interface form no part of the claimed design.
