(57) **CLAIM**
The ornamental design for a display screen with a graphical user interface for electronic messaging, as shown and described.

DESCRIPTION

FIG. 1 illustrates a front view of a display screen with a graphical user interface for electronic messaging in accordance with a first embodiment of our new design.

FIG. 2 illustrates a front view of a display screen with a graphical user interface for electronic messaging in accordance with a second embodiment of our new design.

FIG. 3 illustrates a front view of a display screen with a graphical user interface for electronic messaging in accordance with a third embodiment of our new design; and,

FIG. 4 illustrates a front view of a display screen with a graphical user interface for electronic messaging in accordance with a fourth embodiment of our new design.

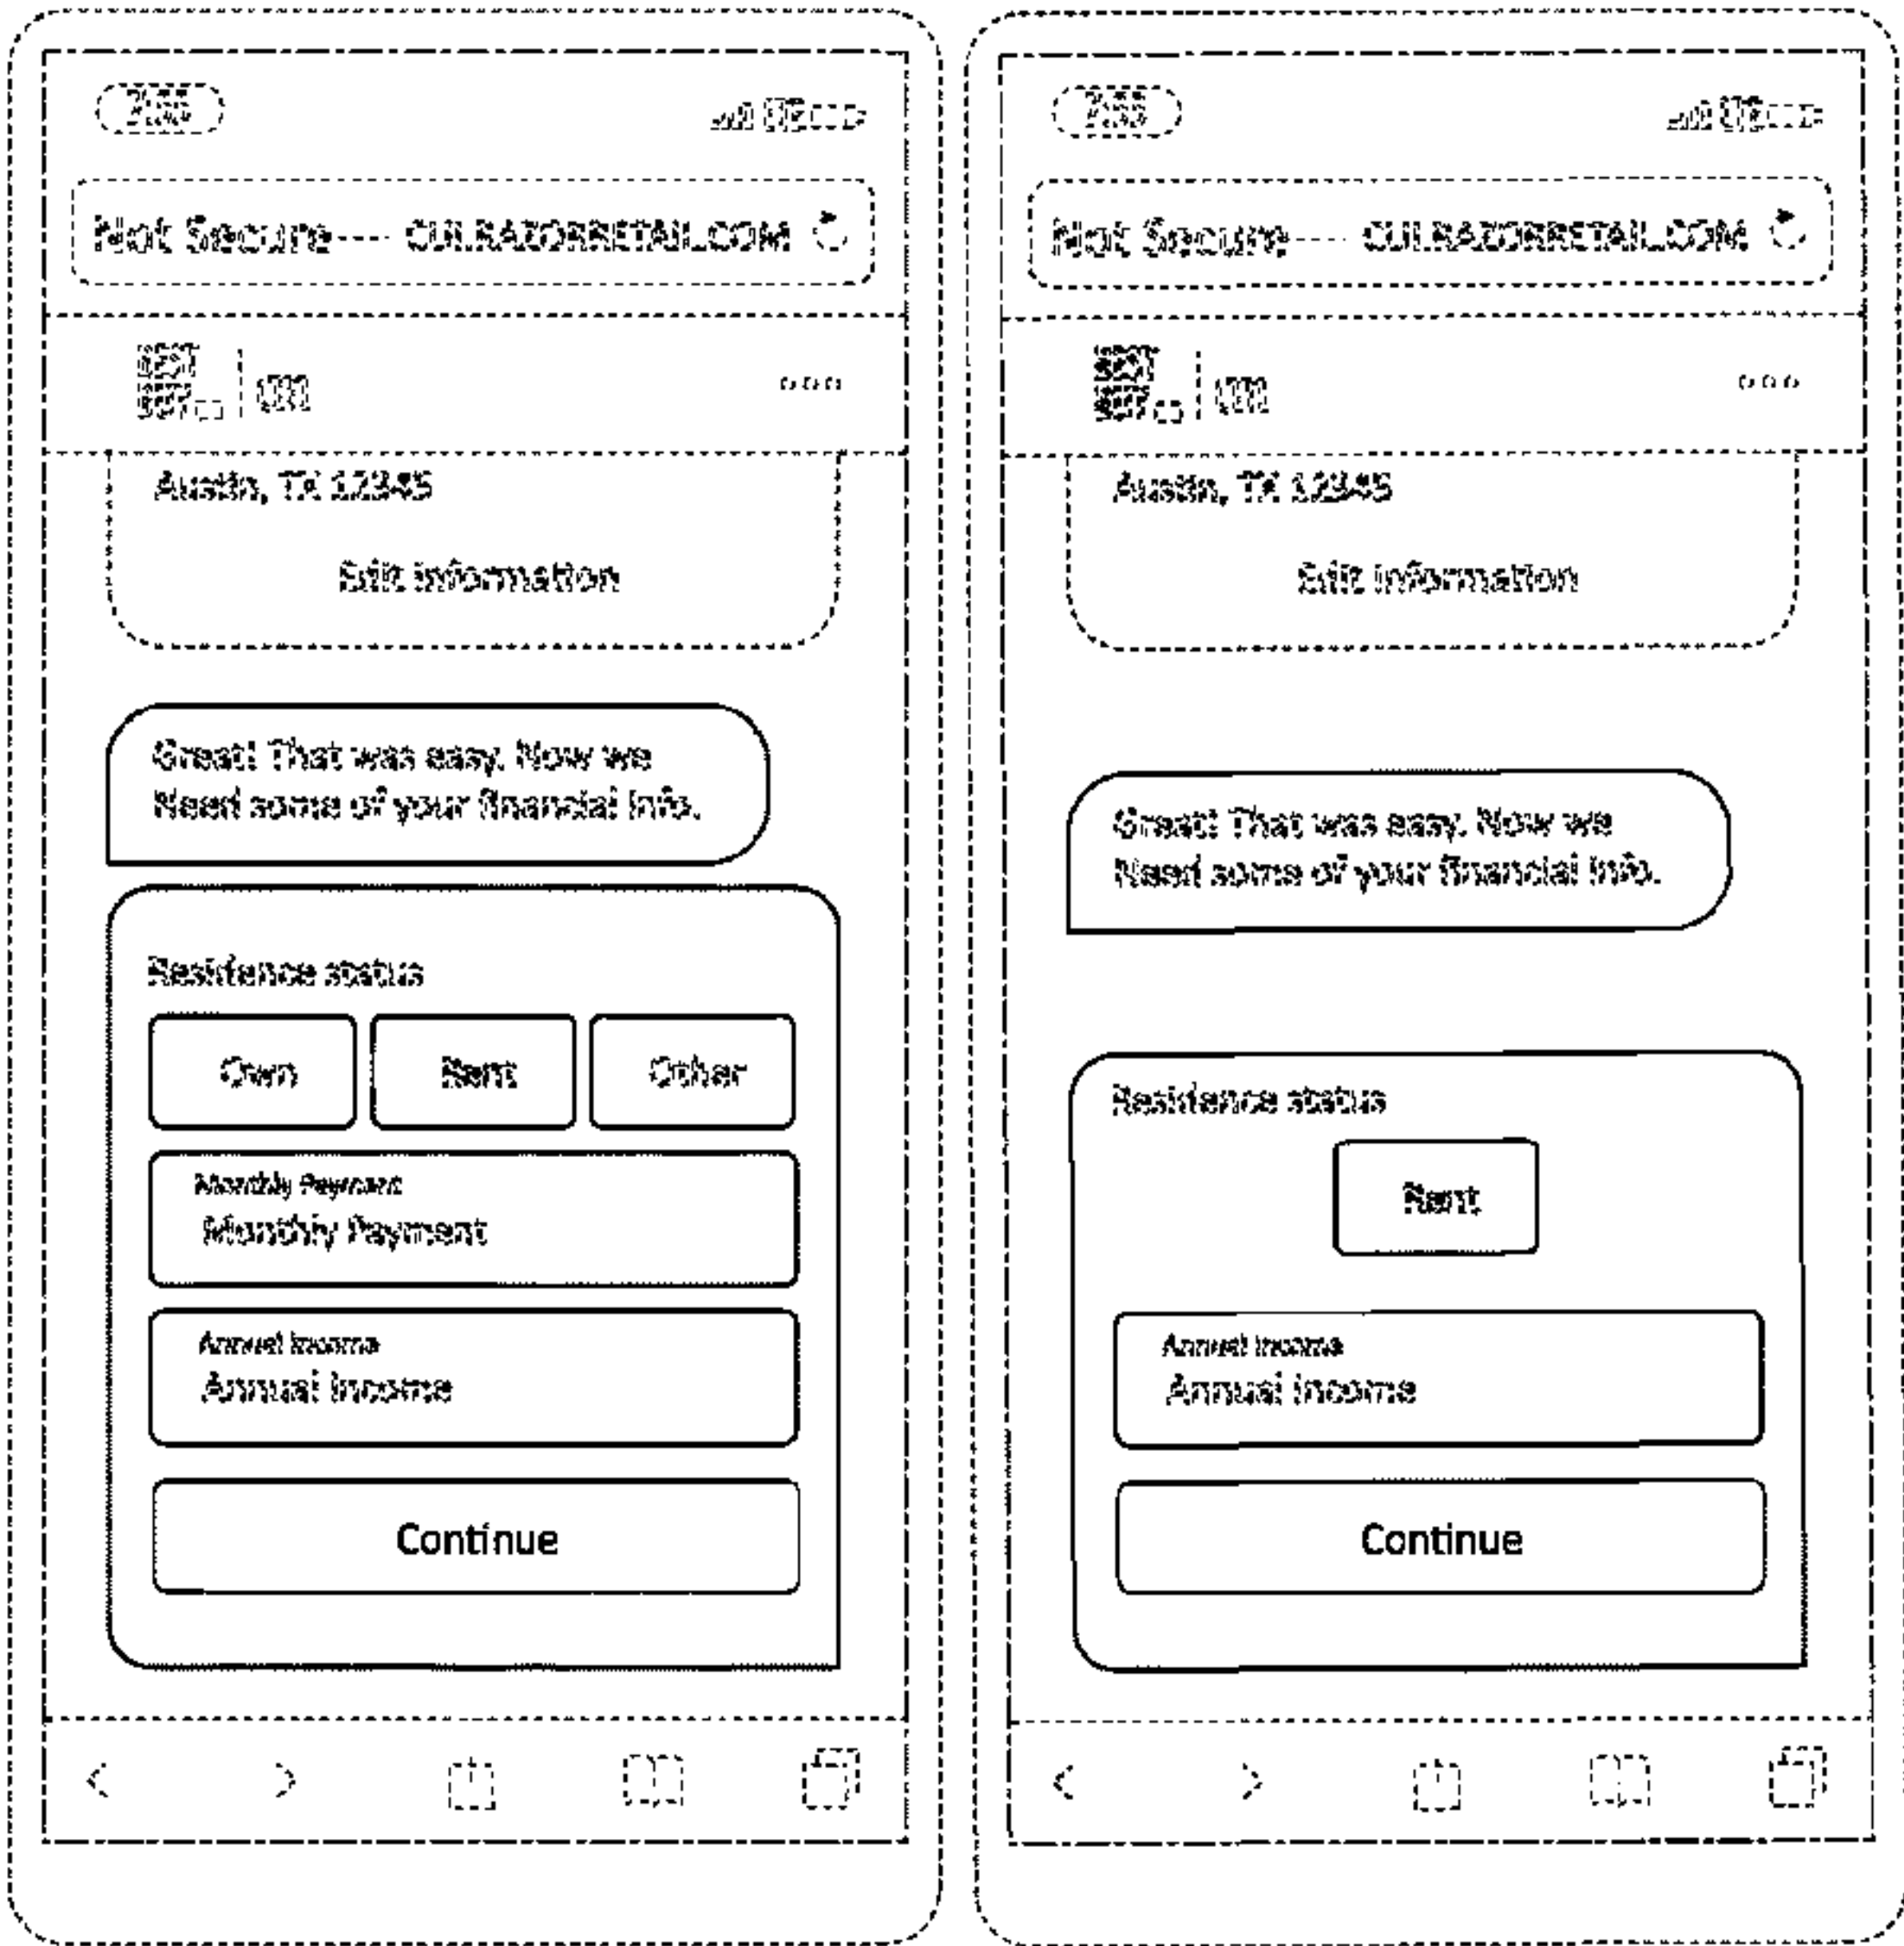

The dot-dash broken line illustrates the display screen. The broken lines appearing outside of the display screen illustrate an electronic device. The broken lines appearing inside of the display screen, including all text shown, illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
