(57) CLAIM

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the display screen or portion thereof with graphical user interface according to our claimed design, the view showing a first image in a sequence; and, FIG. 2 is a front view of the display screen or portion thereof with graphical user interface according to our claimed design, the view showing a second image in the sequence. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which one image transitions to another image forms no part of the claimed design. The outermost dot-dash broken lines showing the display screen form no part of the claimed design. The desaturated areas within the dot-dash lines forms no part of the claimed design. The interior dot-dash lines define the boundary of the claimed design and form no part of the claimed design.
