(57) CLAIM

The ornamental design for a display screen or portion thereof with graphical user interface as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing a first image of our new design;
FIG. 2 is a second image thereof; and,
FIG. 3 is a third image thereof.
The dot-dash broken lines illustrate a display screen or portion thereof and form no part of the claimed design. The black background is included to show the contrasting appearance of the graphical user interface and forms no part of the claimed design. The appearance of the graphical user interface transitions sequentially between FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.
