(57) **CLAIM**

The ornamental design for a display screen or portion thereof with multi-state graphical user interface as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with a multi-state graphical user interface showing a first state of the multi-state graphical user interface showing the claimed design;

FIG. 2 is a second state thereof; and,

FIG. 3 is a third state thereof.

The outermost dashed broken lines in the figures show a display screen or portion thereof, and form no part of the claimed design. The dot-dash broken lines in the figures and the faded areas within the dot-dash broken lines show portions of the multi-state graphical user interface that form no part of the claimed design.

The appearance of the multi-state image sequentially changes between the images shown in FIGS. 1-3. The process or period in which one image changes from one state to another forms no part of the claimed design.
