(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen or portion thereof with graphical user interface showing our new design.
The short dash-long dash broken lines illustrate the portion of the display screen on which the graphical user interface is displayed. The short dash-long dash broken lines form no part of the claimed design. The dash-dash lines represent portions of a graphical user interface that form no part of the claimed design.
