(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for checking running log as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence of a display screen with graphical user interface for checking running log showing our new design; FIG. 2 is a front view of a second image thereof; FIG. 3 is a front view of a third image thereof; and, FIG. 4 is a front view of a fourth image thereof. The broken lines consisting of evenly spaced dash lines in the drawings depict portions of the display screen with graphical user interface for checking running log that form no part of the claimed design. The appearance of the images sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.
