(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a graphical user interface for a setup process in a data management application as shown and described.

DESCRIPTION

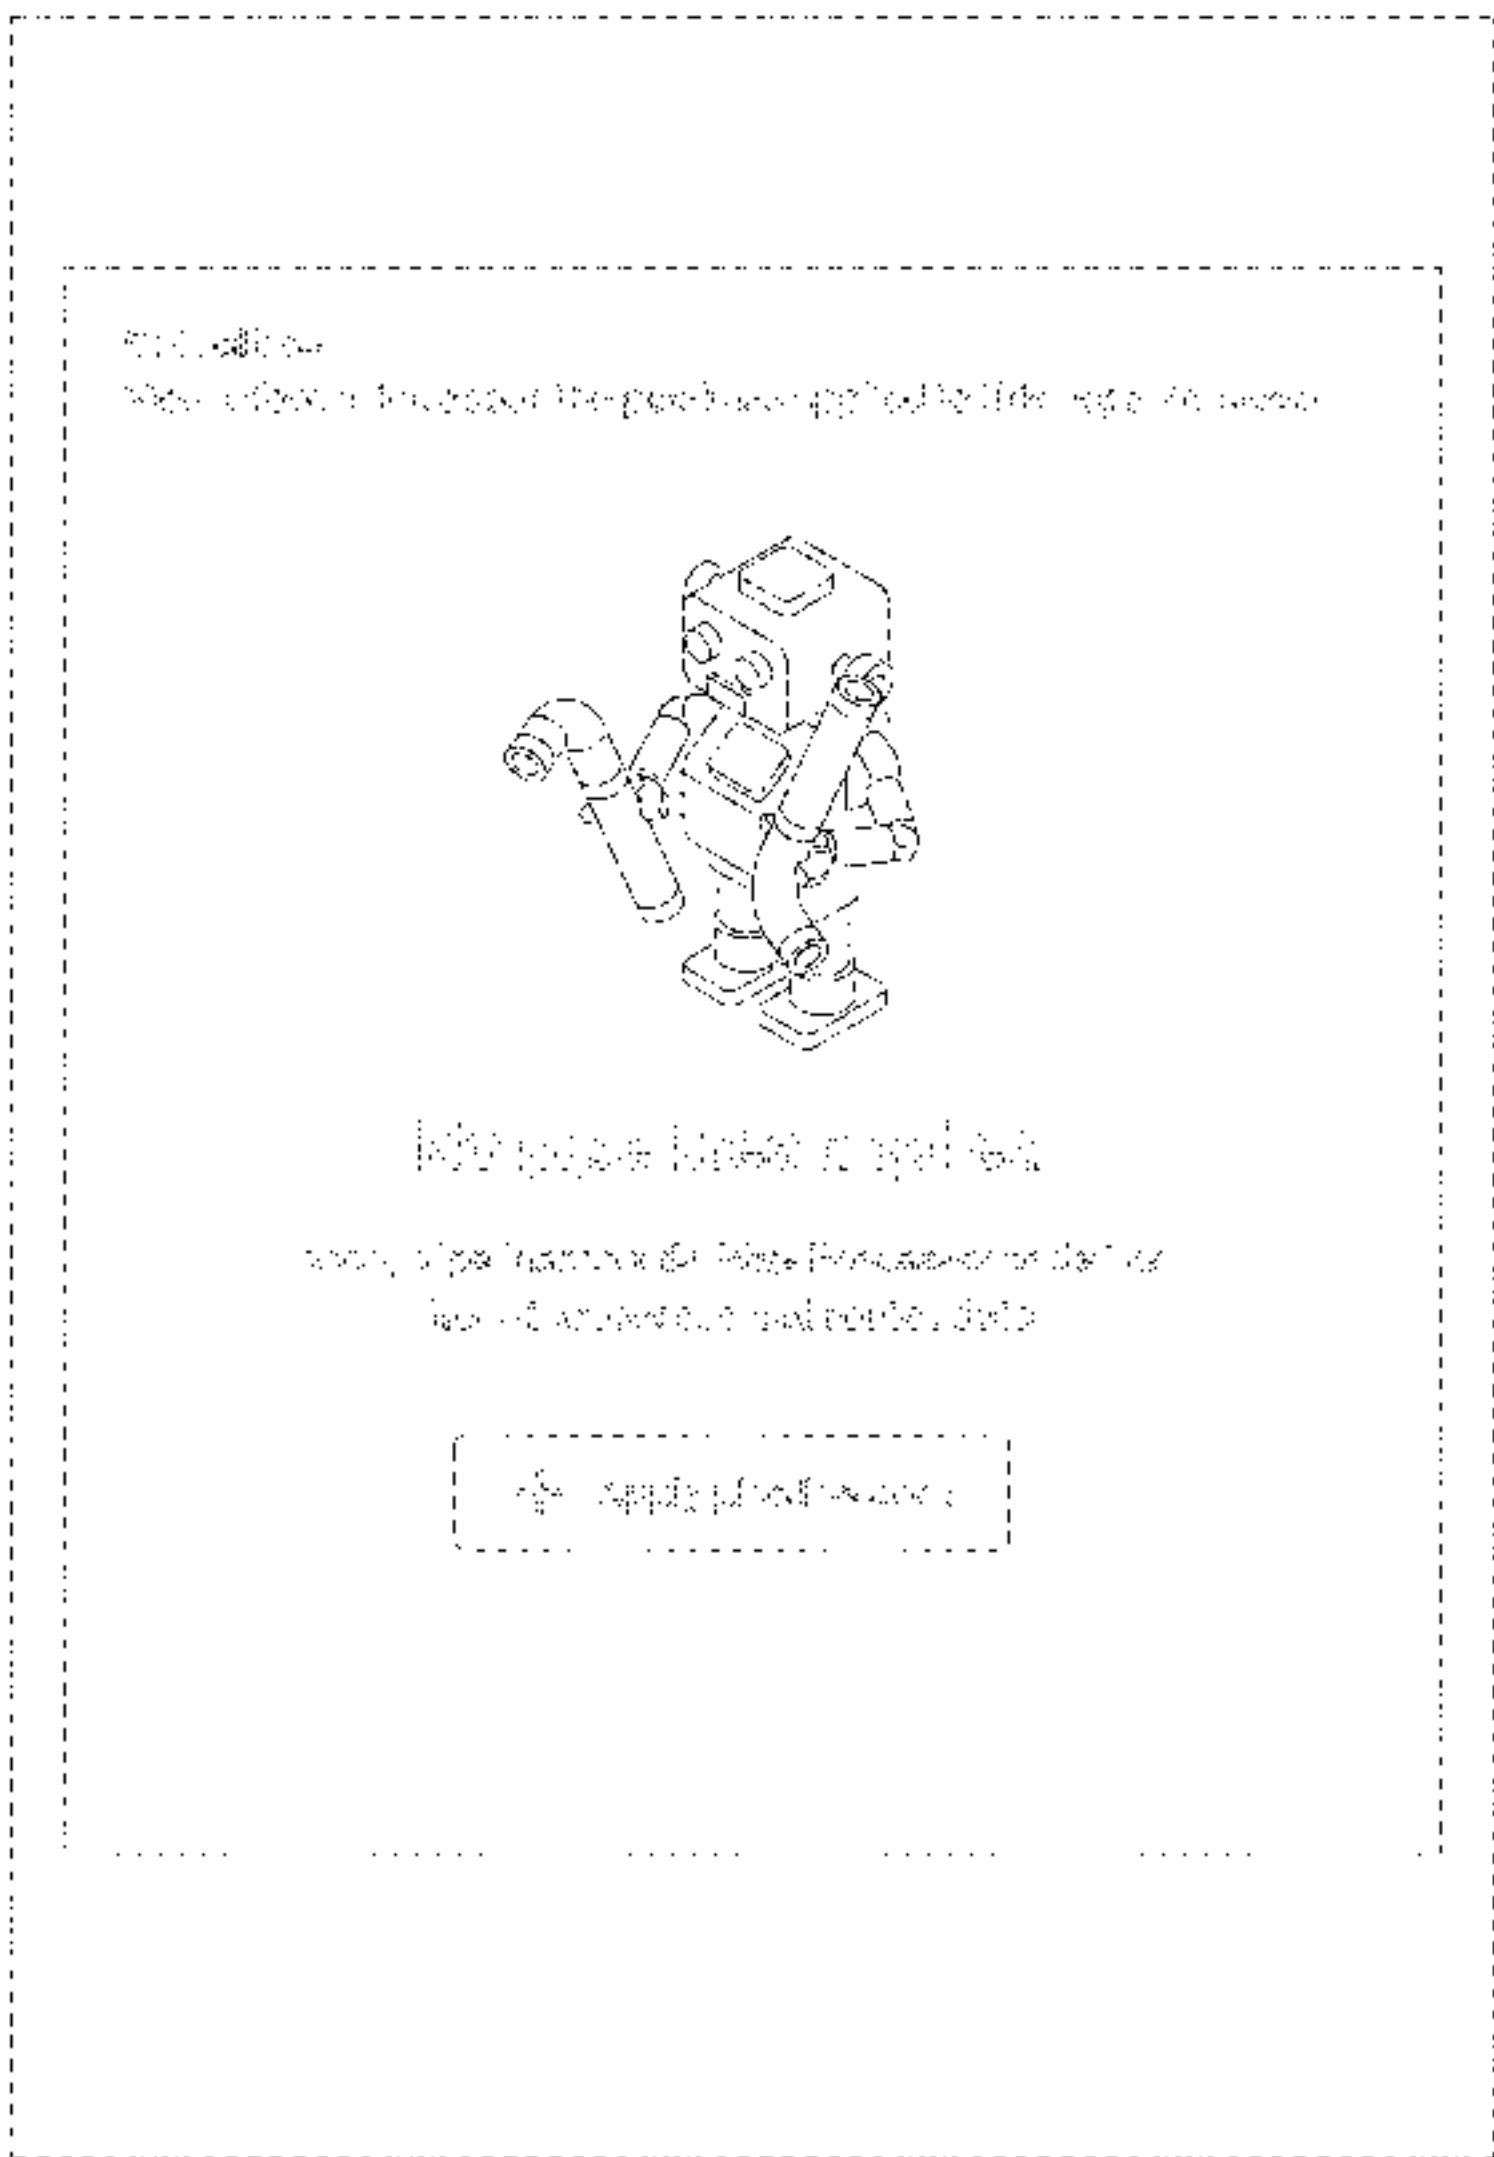

The FIGURE is a display screen or portion thereof with a graphical user interface for a setup process in a data management application, showing our new design. The outer perimeter broken lines represent a display screen or portion thereof and form no part of the claimed design. The remaining broken lines show portions of the graphical user interface for a setup process in a data management application and form no part of the claimed design.
