(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface for motor vehicle as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface for motor vehicle according to a first embodiment of the design;

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface for motor vehicle according to a second embodiment of the design; and,

FIG. 3 is a front view of a display screen or portion thereof with graphical user interface for motor vehicle according to a third embodiment of the design.

The broken line showing of the display screen or portion thereof with graphical user interface for motor vehicle is for the purpose of illustrating portions of the display screen or portion thereof with graphical user interface for motor vehicle and forms no part of the claimed design.
