CLAIM

The ornamental design for a rear support for a cervical collar, as shown and described.

DESCRIPTION

FIG. 1 is a top rear perspective view of a design of a rear support for a cervical collar.

FIG. 2 bottom front perspective view of a design of a rear support for a cervical collar.

FIG. 3 is top plan view of a design of a rear support for a cervical collar.

FIG. 4 is a right side elevation view of a design of a rear support for a cervical collar, the left side elevation view being a mirror image thereto.

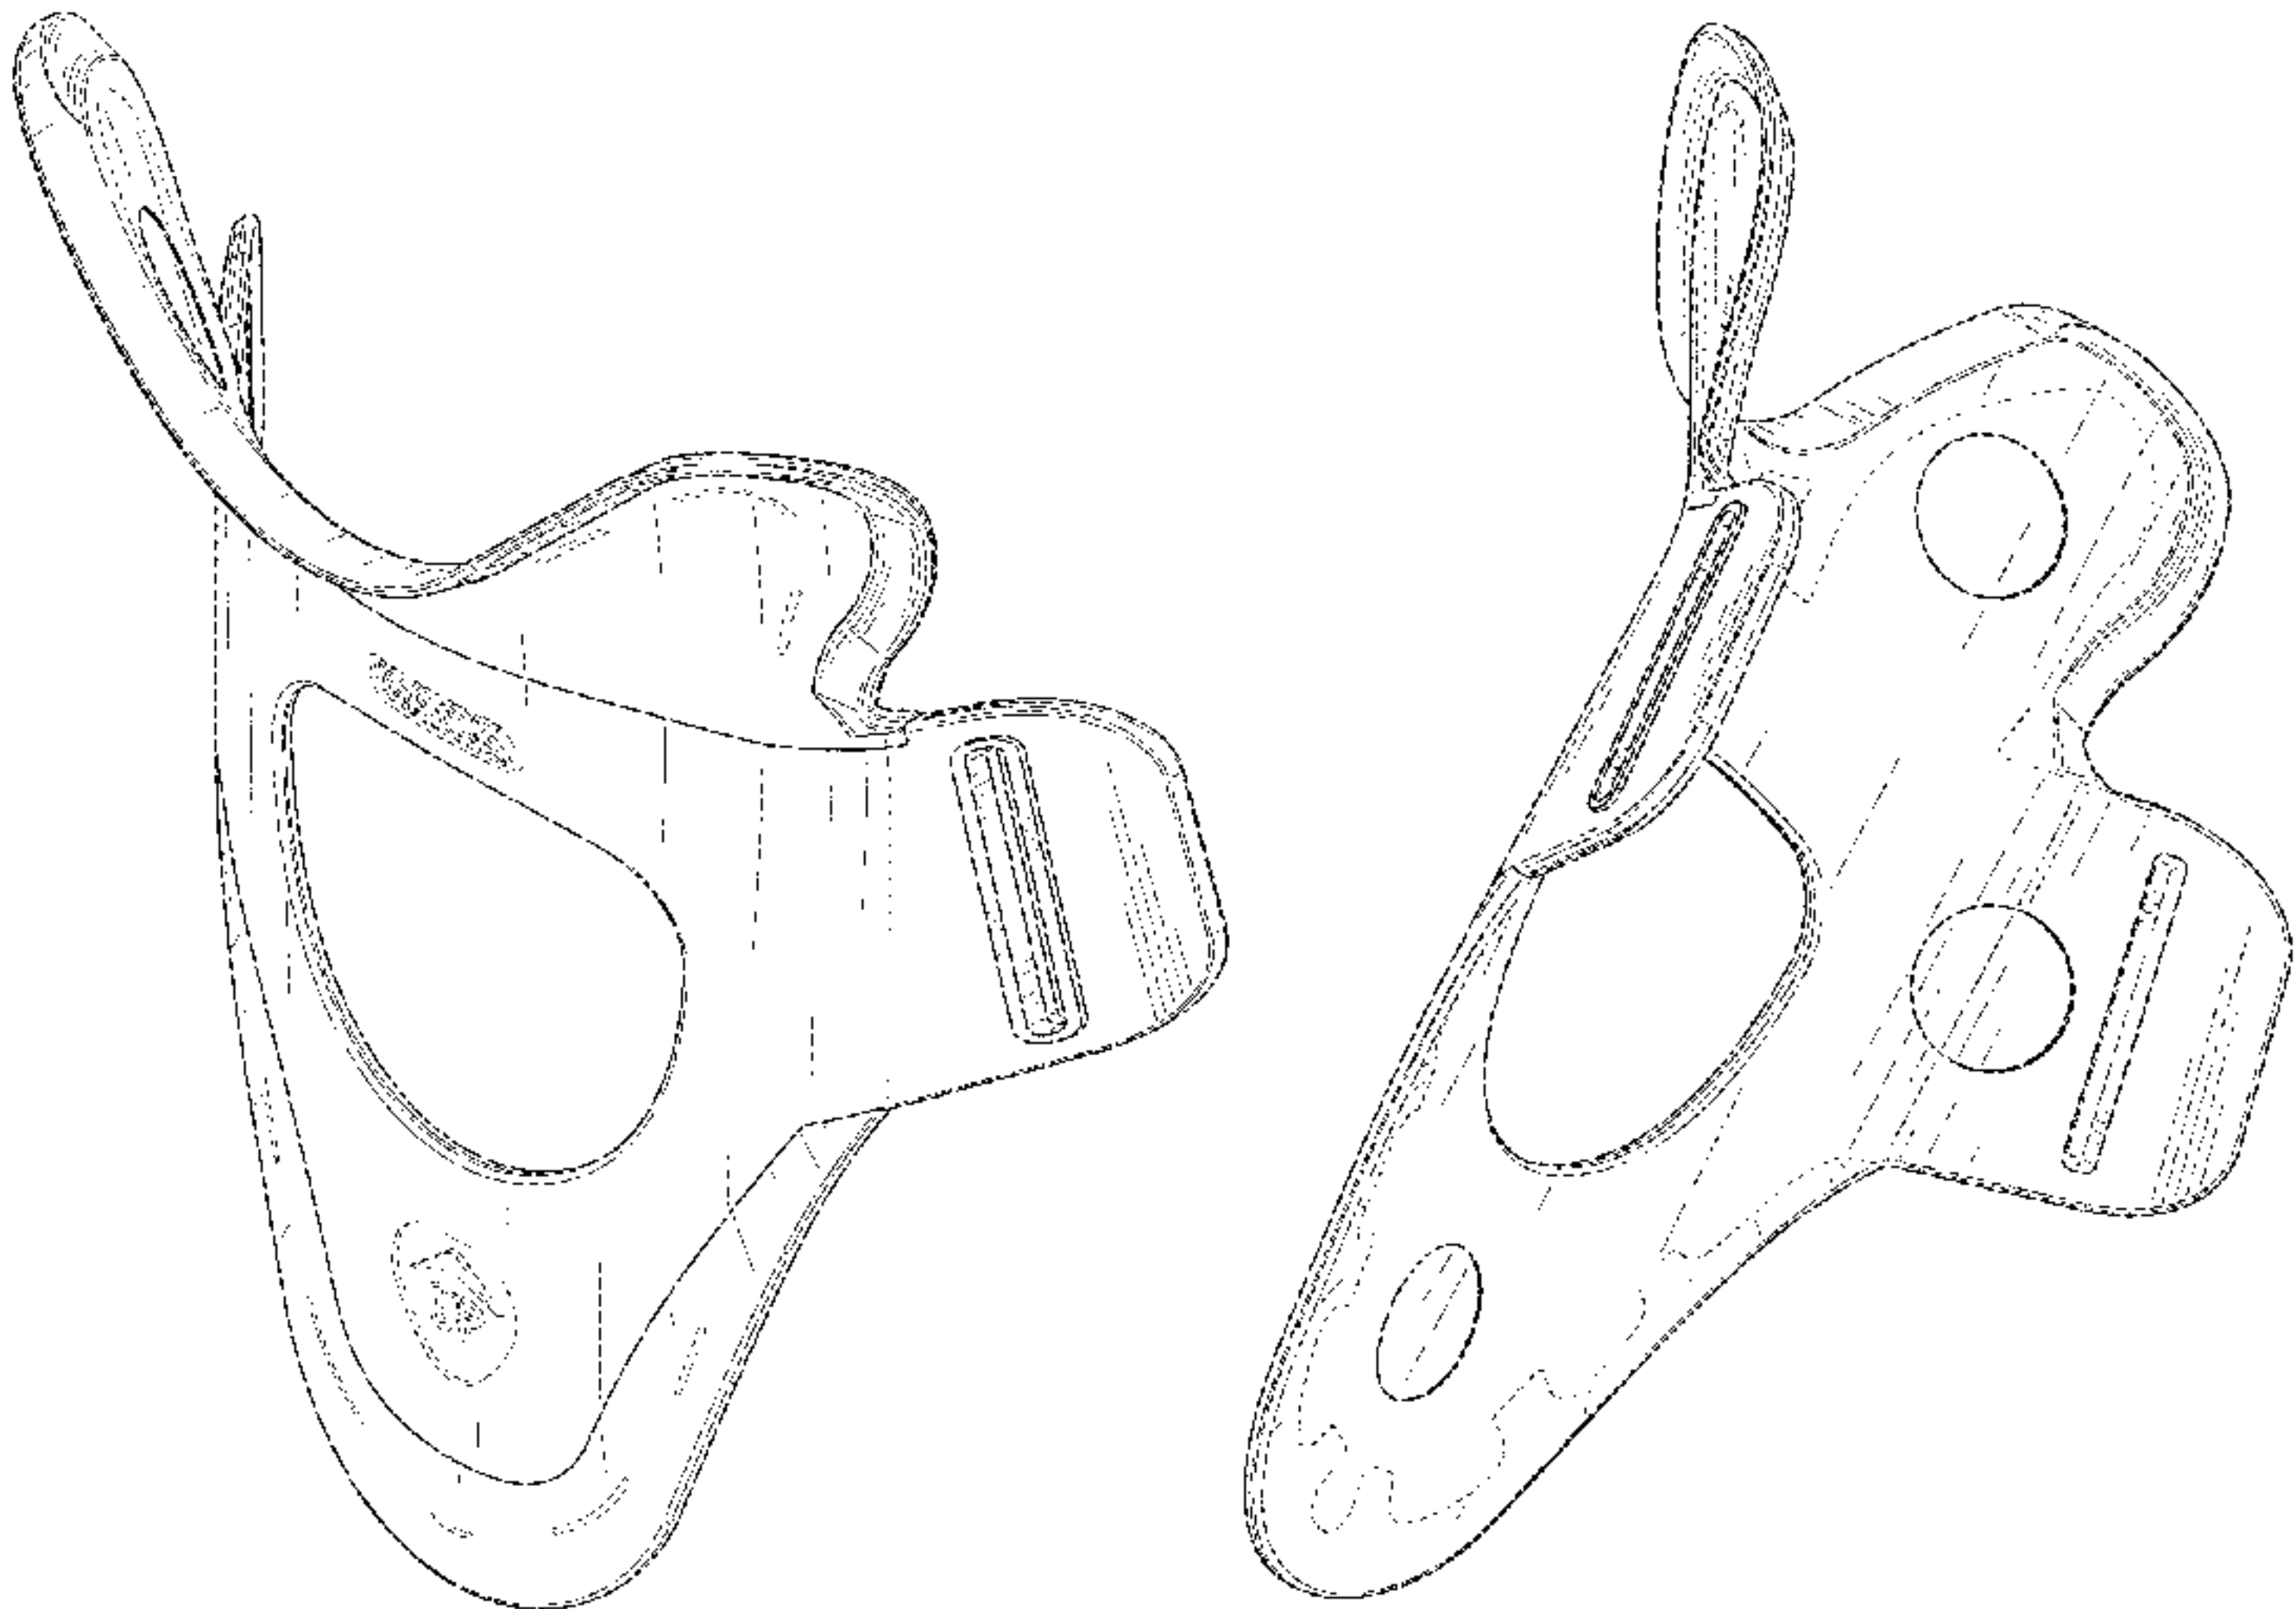

FIG. 5 is a bottom plan view of a design of a rear support for a cervical collar.

FIG. 6 is a front elevation view of a design of a rear support for a cervical collar; and,

FIG. 7 is a rear elevation view of a design of a rear support for a cervical collar.

In the drawings, the broken lines depict elements of the rear support for a cervical collar that form no part of the claimed design.
