(57) **CLAIM**

The ornamental design for an air supply attachment for a helmet as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a first embodiment of an air supply attachment for a helmet, including an air conduit and an adapter shown in use coupled to a helmet, showing our new design;
FIG. **2** is a front view thereof;
FIG. **3** is a rear view thereof;
FIG. **4** is a right side view thereof;
FIG. **5** is a left side view thereof;
FIG. **6** is a top view thereof;
FIG. **7** is a bottom view thereof;
FIG. **8** is a perspective view of a second embodiment of an air supply attachment for a helmet, including an air conduit and an adapter shown in use coupled to a helmet;
FIG. **9** is a front view thereof;
FIG. **10** is a rear view thereof;
FIG. **11** is a right side view thereof;
FIG. **12** is a left side view thereof;
FIG. **13** is a top view thereof;
FIG. **14** is a bottom view thereof;
FIG. **15** is a perspective view of a third embodiment of an air supply attachment for a helmet, including an air conduit and an adapter;
(Continued)

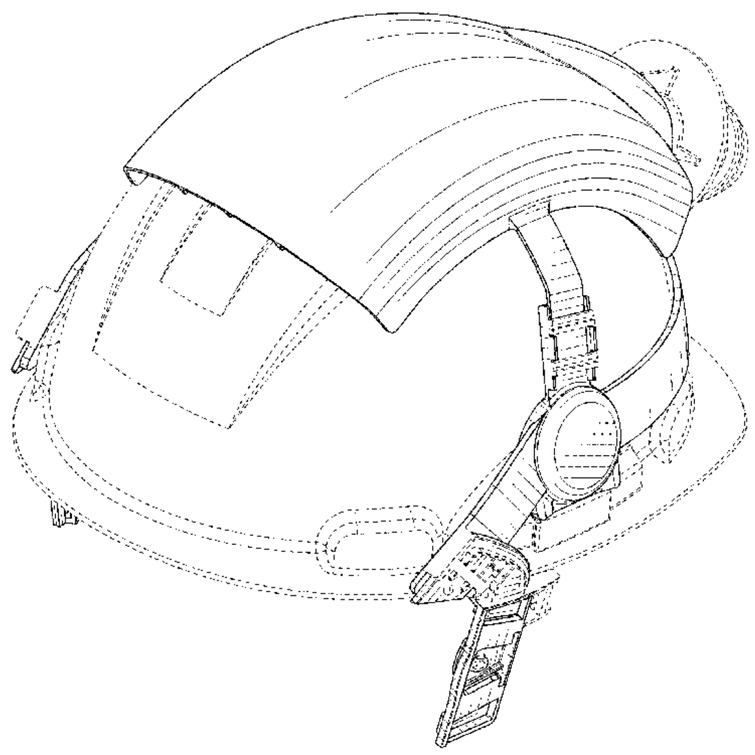

FIG. **16** is a front view thereof;
FIG. **17** is a rear view thereof;
FIG. **18** is a right side view thereof;
FIG. **19** is a left side view thereof;
FIG. **20** is a top view thereof;
FIG. **21** is a bottom view thereof;
FIG. **22** is a perspective view of a fourth embodiment of an air supply attachment for a helmet, including an air conduit and an adapter;
FIG. **23** is a front view thereof;
FIG. **24** is a rear view thereof;
FIG. **25** is a right side view thereof;
FIG. **26** is a left side view thereof;
FIG. **27** is a top view thereof; and,
FIG. **28** is a bottom view thereof.
The broken lines depict portions of the air supply attachment for a helmet that form no part of the claimed design.
