(57) CLAIM

The ornamental design for a removable band portion of an animal collar, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a removable band portion of an animal collar, according to an embodiment;
FIG. 2 is a bottom perspective view of the removable band portion of the animal collar illustrated in FIG. 1;
FIG. 3 is a left side view of the removable band portion of the animal collar illustrated in FIG. 1;
FIG. 4 is a right side view of the removable band portion of the animal collar illustrated in FIG. 1;
FIG. 5 is a front view of the removable band portion of the animal collar illustrated in FIG. 1;
FIG. 6 is a rear view of the removable band portion of the animal collar illustrated in FIG. 1;
FIG. 7 is a top view of the removable band portion of the animal collar illustrated in FIG. 1;
FIG. 8 is a bottom view of the removable band portion of the animal collar illustrated in FIG. 1;
FIG. 9 is a perspective view of the removable band portion of the animal collar illustrated in FIGS. 1-8, shown in the environment of a collar with a wearable electronic device according to an embodiment;
FIG. 10 is a left side view of the removable band portion of the animal collar illustrated in FIGS. 1-8, shown in the environment of the animal collar;
FIG. 11 is a right side view of the removable band portion of the animal collar illustrated in FIGS. 1-8, shown in the environment of the animal collar;
FIG. 12 is a rear view of the removable band portion of the animal collar illustrated in FIGS. 1-8, shown in the environment of the animal collar;
FIG. 13 is a front view of the removable band portion of the animal collar illustrated in FIGS. 1-8, shown in the environment of the animal collar;

(Continued)

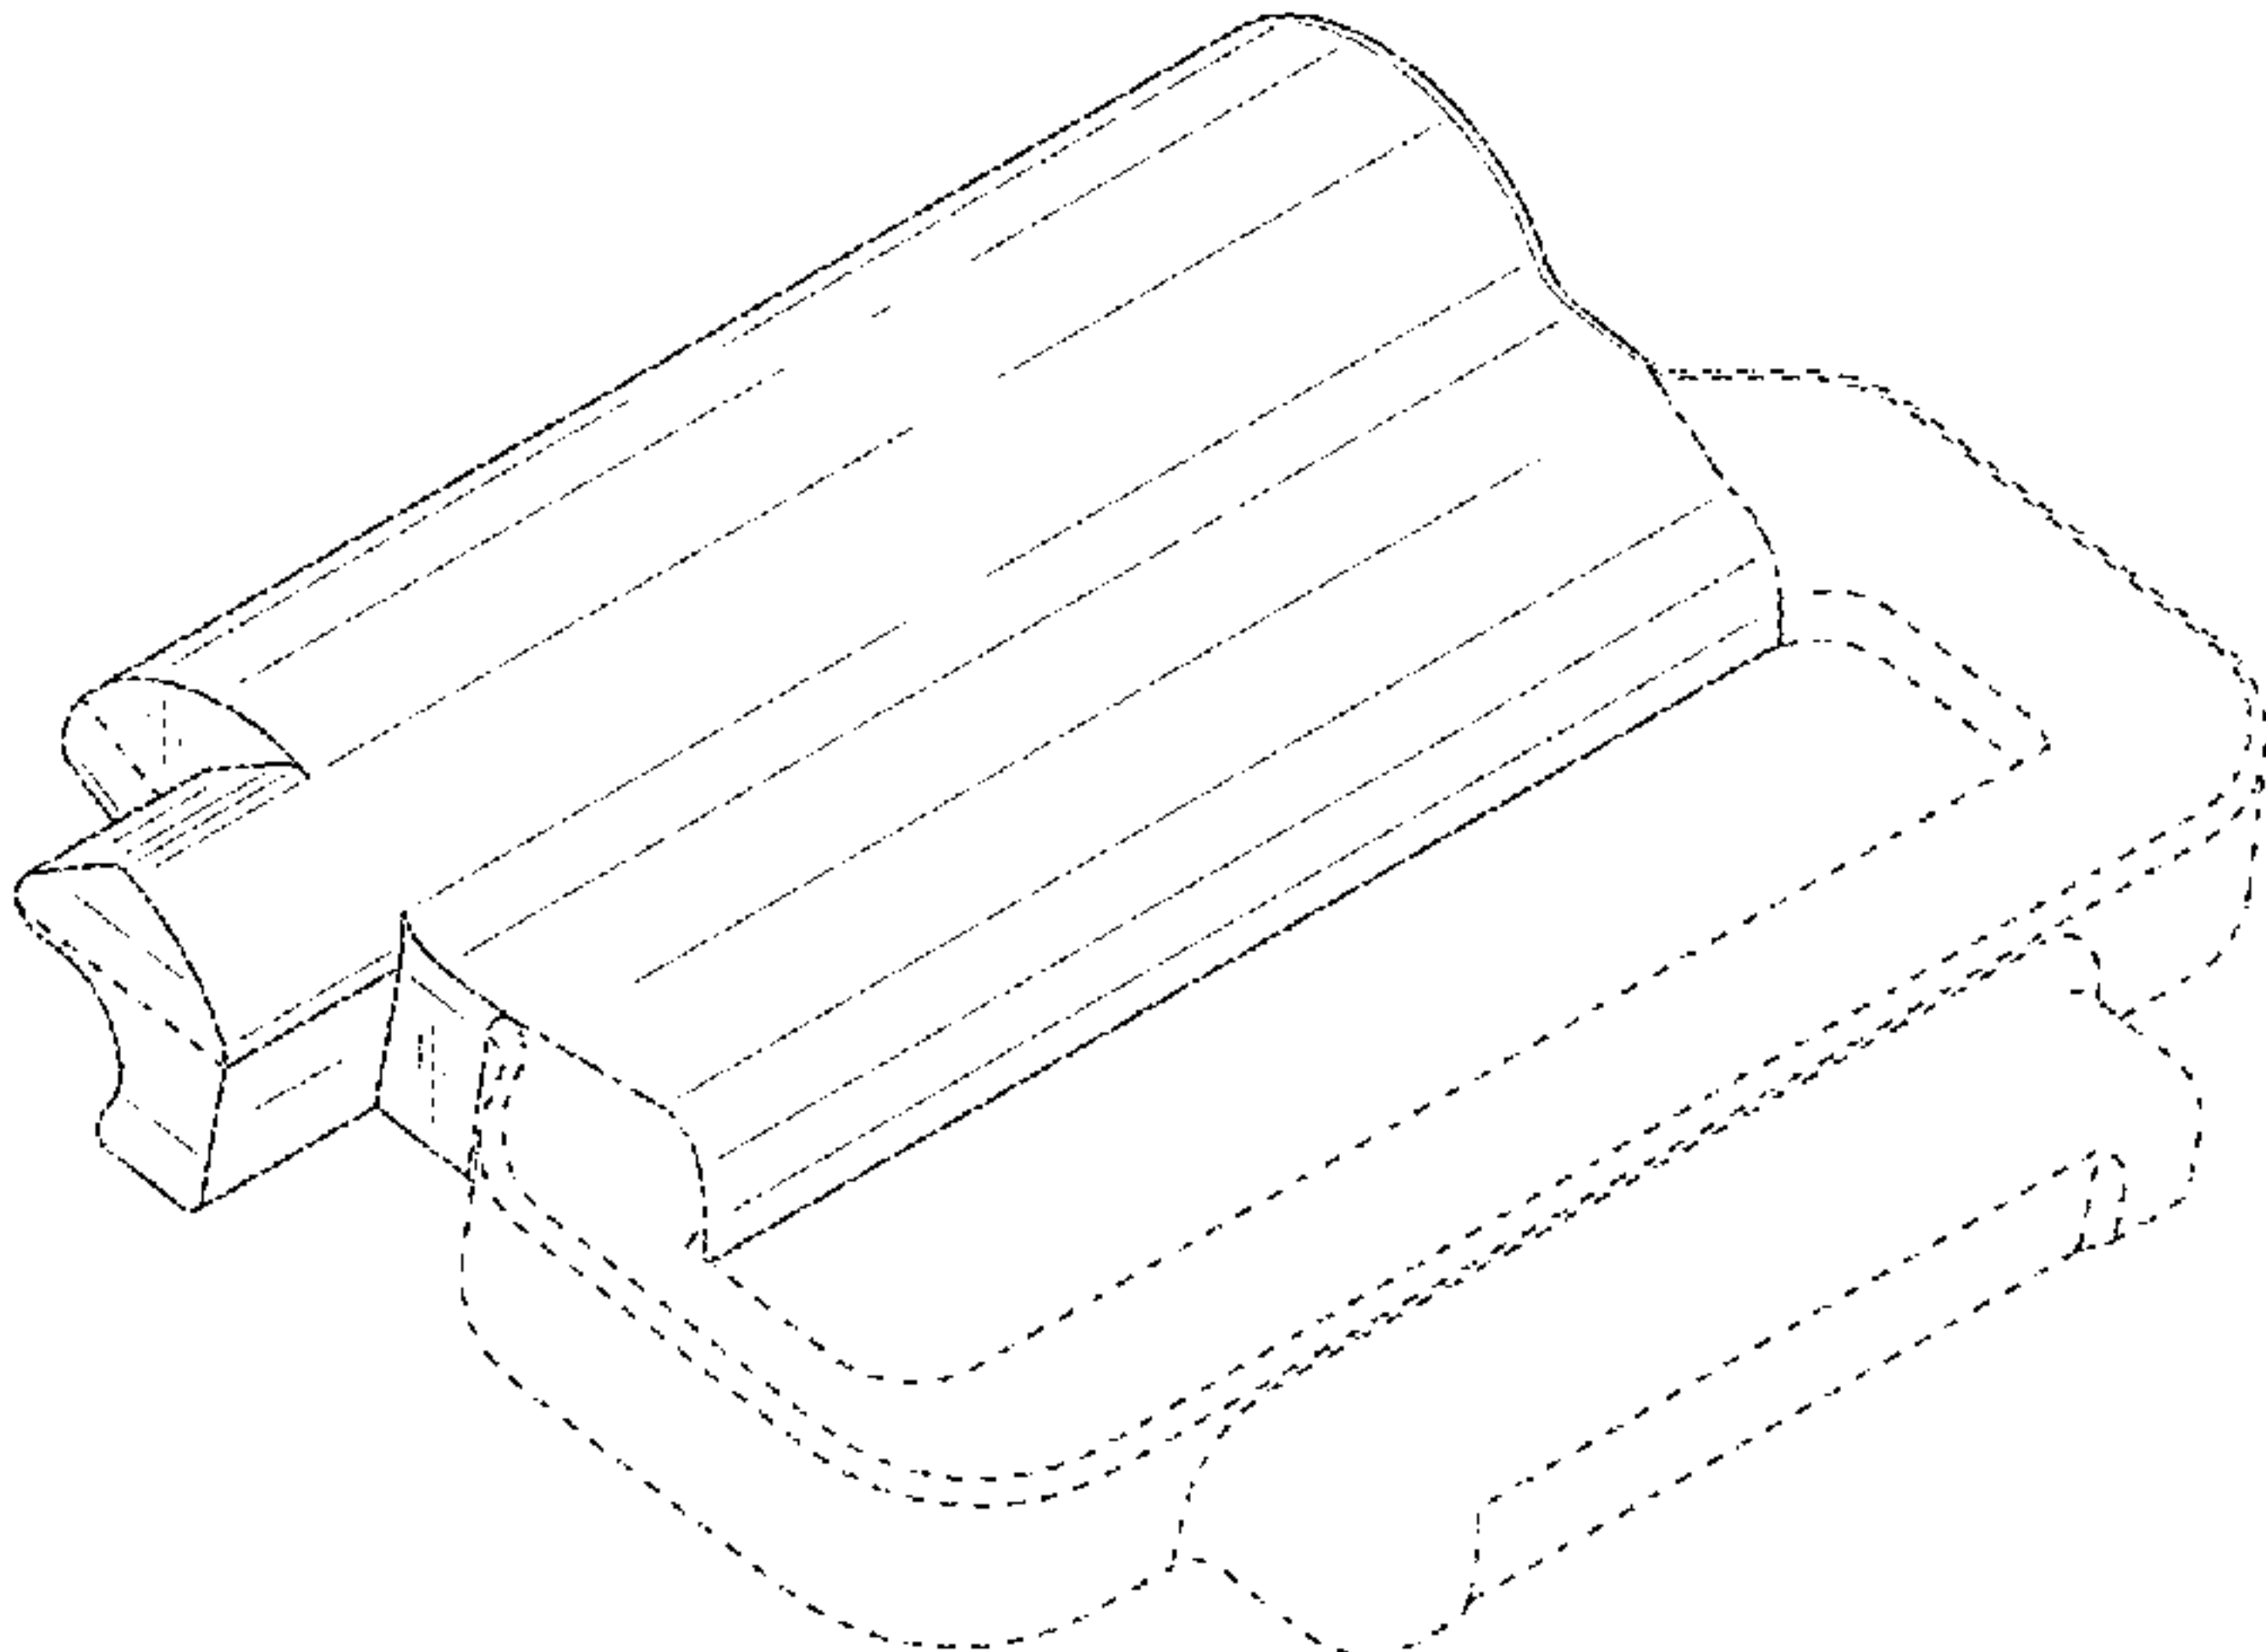

FIG. 14 is a top view of the removable band portion of the animal collar illustrated in FIGS. 1-8, shown in the environment of the animal collar; and, FIG. 15 is a bottom view of the removable band portion of the animal collar illustrated in FIGS. 1-8, shown in the environment of the animal collar. The broken lines are directed to environment and are for illustrative purposes only and form no part of the claimed design. The thin solid lines illustrate surface contour and form no part of the claimed design. The dot-dash lines define the boundary of the claimed design and do not form part of the claimed design. The drawings contain symbolic breaks. The portions between the break lines form no part of the claimed design.

1 Claim, 15 Drawing Sheets
