(57) **CLAIM**

The ornamental design for a display panel or portion thereof
with graphical user interface, as shown and described.

DESCRIPTION

This patent or application file contains at least one drawing
executed in color. Copies of this patent or patent application
publication with color drawing(s) will be provided by the
Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display panel or portion thereof
with graphical user interface according to a first embodiment
of our new design;

FIG. 2 is a front view of a second embodiment thereof; and,
FIG. 3 is a front view of a third embodiment thereof.

The broken lines immediately adjacent to the outer edge
perimeter of the graphical user interface of FIGS. 1-3
represent a portion of a display screen.
