[57] CLAIM

The ornamental design for a cable television converter control terminal or the like, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a cable television control terminal embodying our new design; FIG. 2 is a top plan view thereof; FIG. 3 is a front elevational view thereof; and FIG. 4 is a side elevational view thereof. The broken line indicia is shown for illustrative purposes only. The undisclosed rear portions of the control terminal is unornamented and generally follows the configuration illustrated in FIG. 4.
