[57] **CLAIM**

The ornamental design for a condensed multiple convergence linear optical and receiver plate for solar conversion or the like, substantially as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a condensed multiple convergence linear optical and receiver plate for solar conversion or the like showing my new design.

FIGS. **2, 3, 4** and **5** are perspective views of further embodiments of my design. The underside of each embodiment is flat and plain. The plate of each embodiment is understood to have indeterminate length.
