[57] **CLAIM**

The ornamental design for a physiological sensor for placement on the skin of humans or animals to detect electrical activity in the localized region thereof, as shown.

DESCRIPTION

FIG. 1 is a perspective view of a physiological sensor for placement on the skin of humans or animals to detect electrical activity in the localized region thereof; FIG. 2 is a side elevational view of FIG. 1, the opposite side being a mirror image thereof; FIG. 3 is an end elevational view of FIG. 1; and FIG. 4 is a top plan view of FIG. 1.

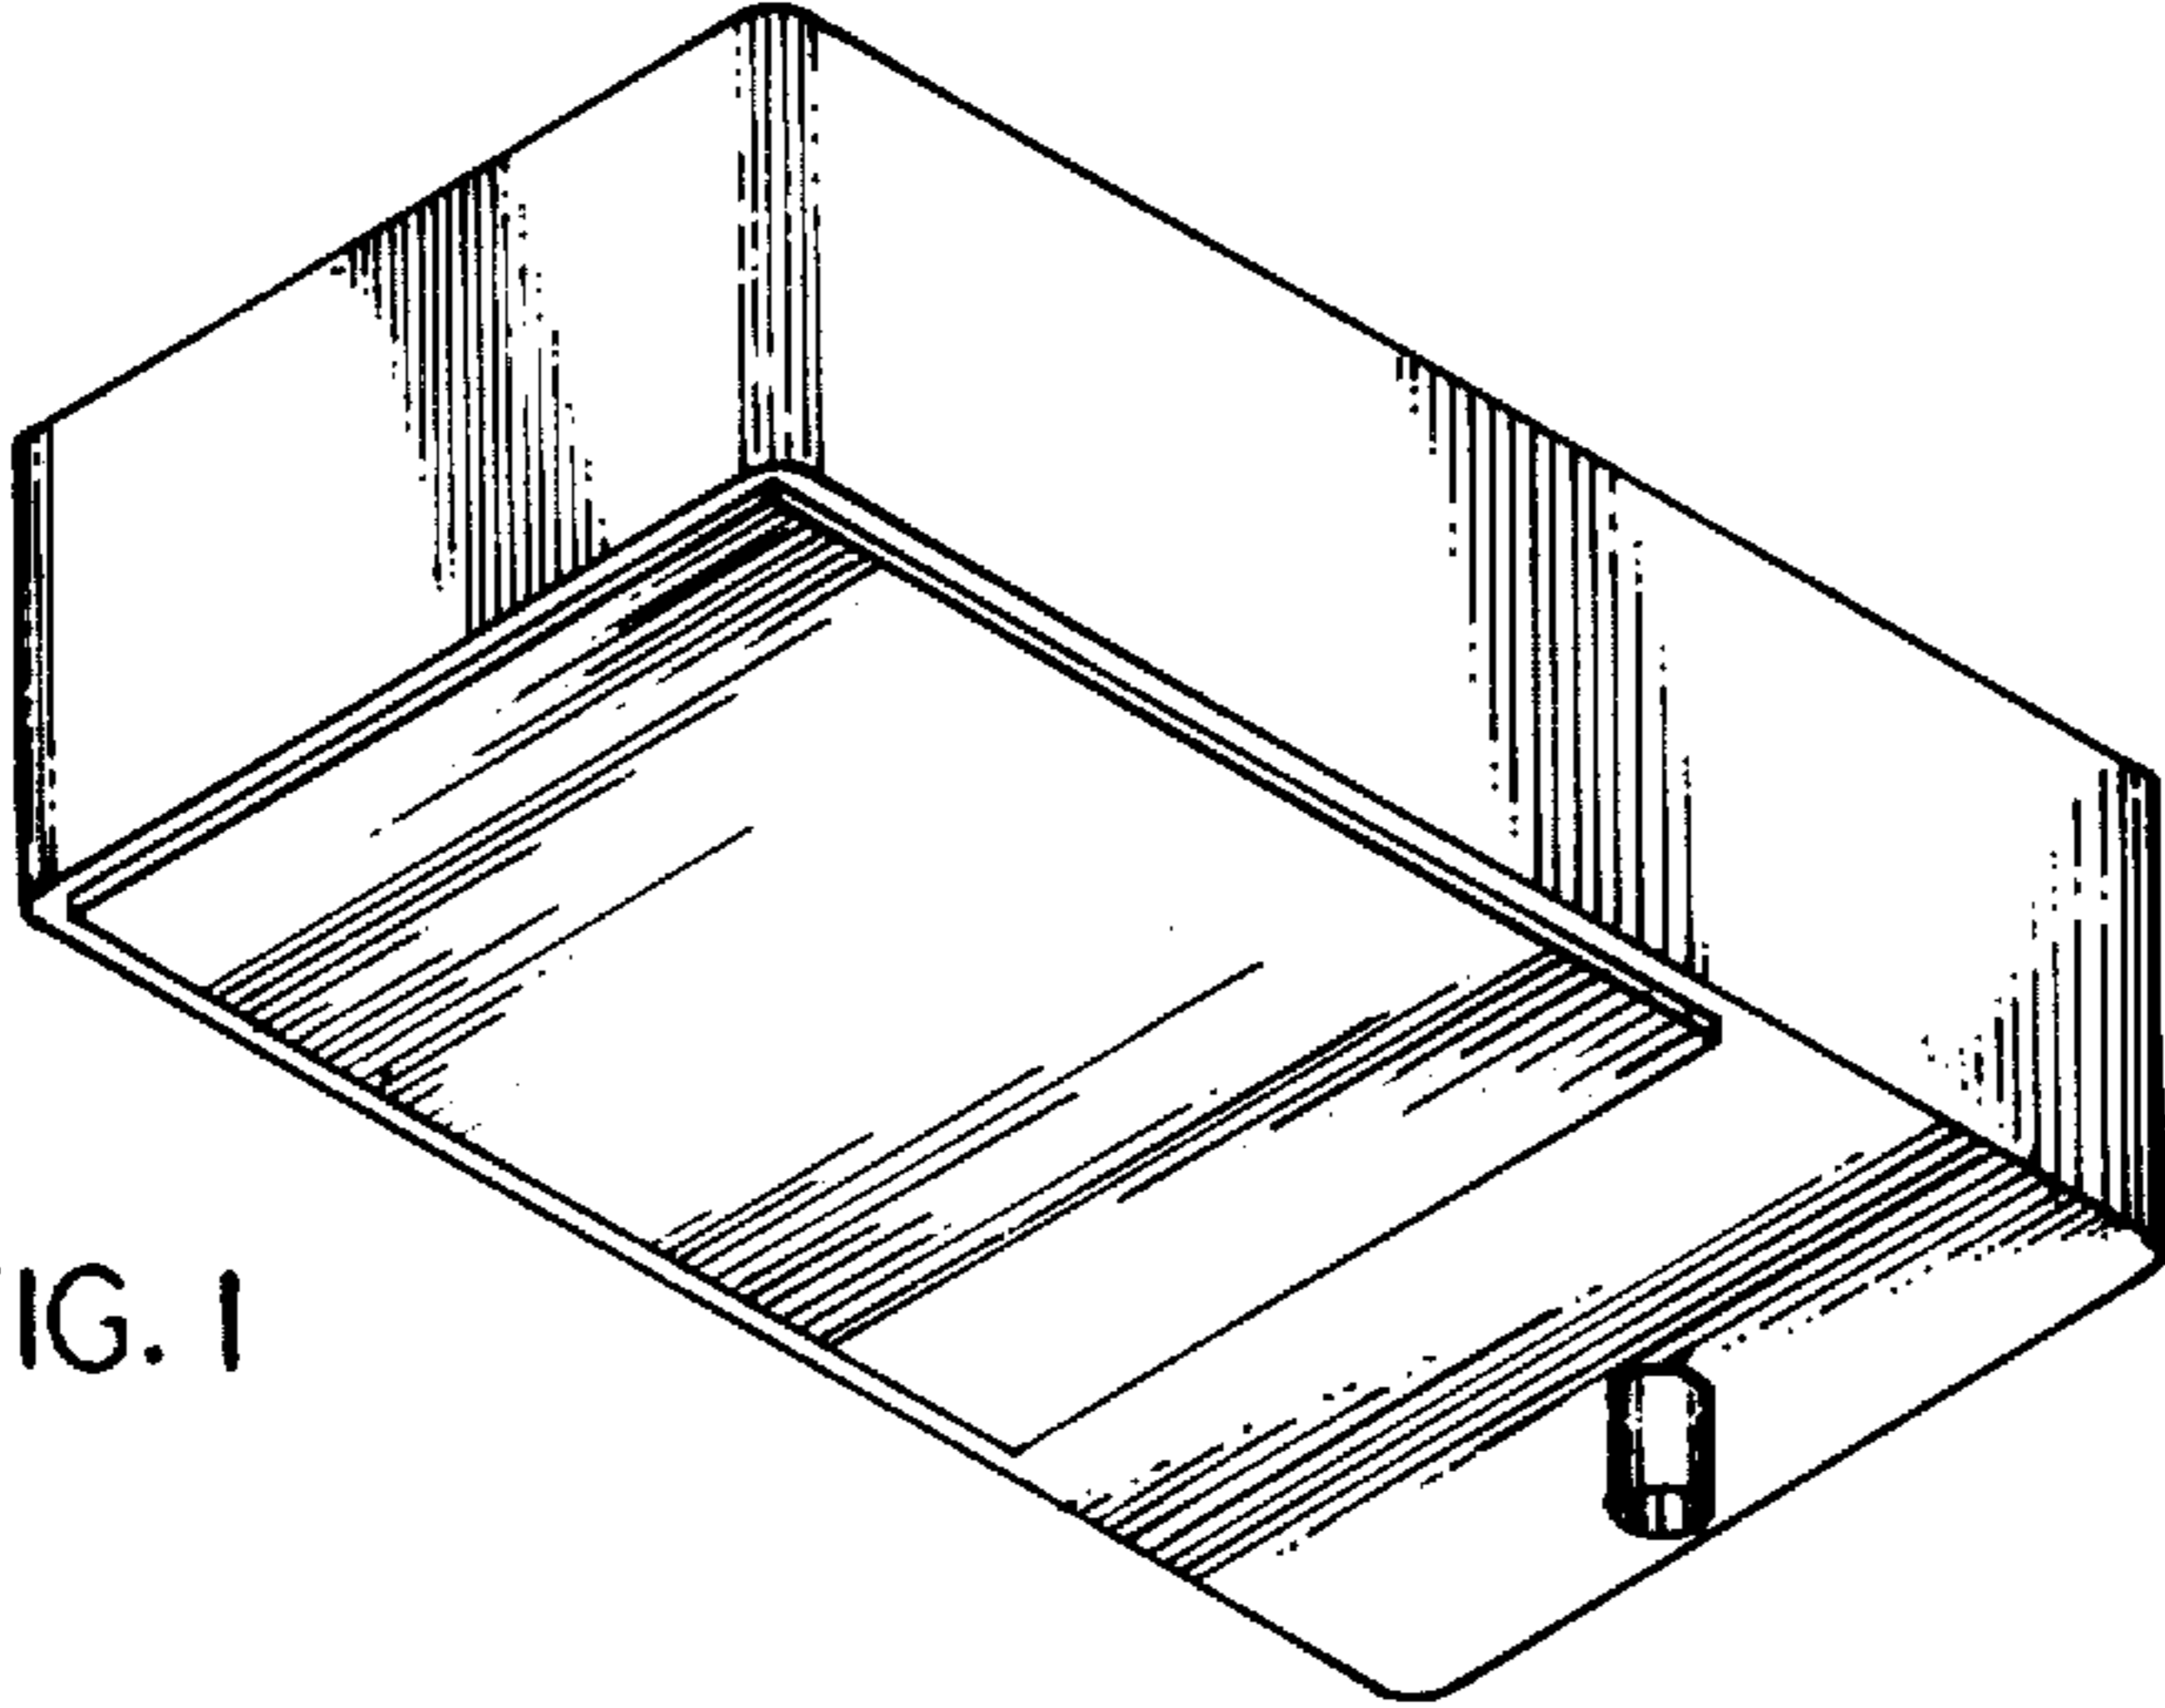

FIG. 1

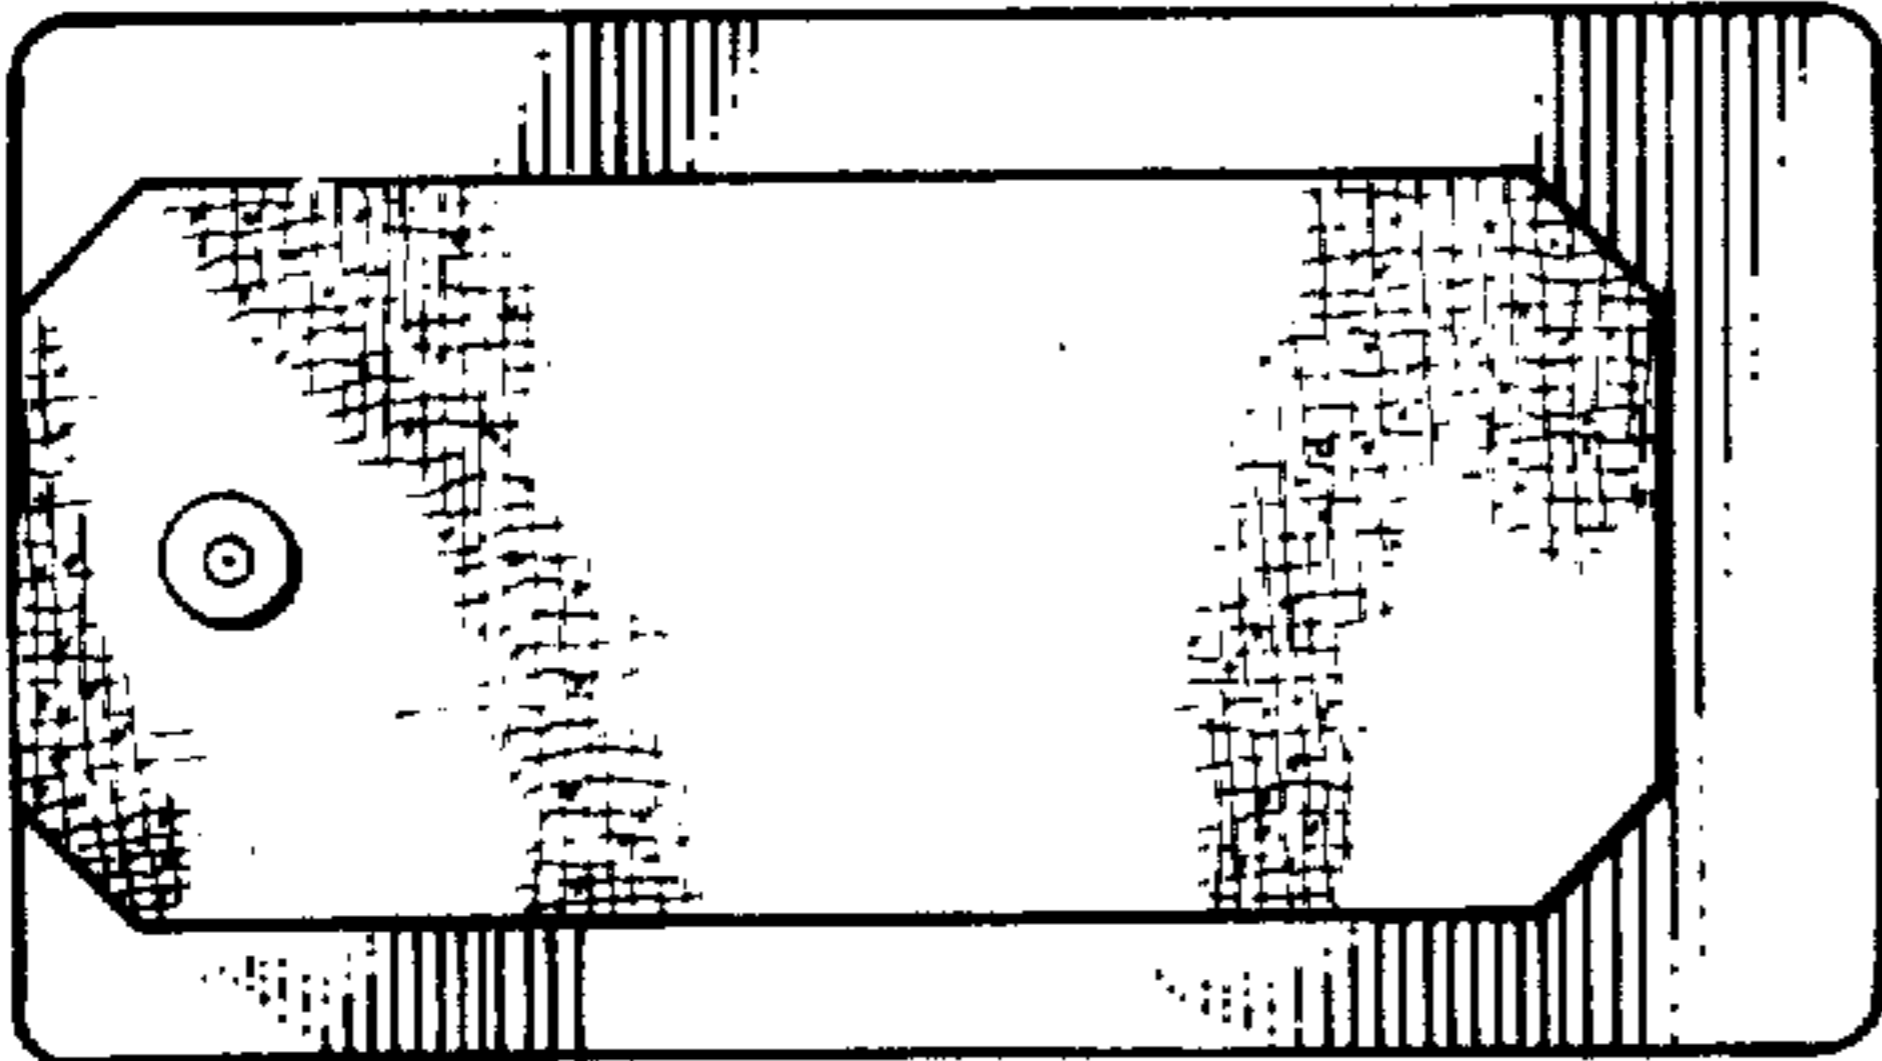

FIG. 4
