[57] CLAIM

The ornamental design for a square commode, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from the front and right of a square commode showing my new design. A perspective view from the rear and left would appear virtually the same, but for the absence of door pulls and hinges. The bottom of the square commode is plain and unornamented.

FIG. 2 is a fragmentary sectional view taken at 2-2 of FIG. 1.
