[57] **CLAIM**

The ornamental design for a hexagonal commode, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from the front and left of a hexagonal commode showing my new design. A perspective view from the rear and right would appear virtually the same, but for the absence of door pulls and hinges.
The bottom of the hexagonal commode is plain and unornamented.
FIG. 2 is a fragmentary sectional view taken at 2—2 of FIG. 1.
