[57] CLAIM
The ornamental design for a cocktail table, as shown and described.

DESCRIPTION
FIG. 1 is a perspective view from the front and left of a cocktail table showing a first embodiment of my new design. A perspective from the rear and right would appear virtually the same. The bottom of the cocktail table is plain and unornamented.
FIG. 2 is a perspective view from the front and left of a cocktail table showing a second embodiment of my new design. A perspective view from the rear and right would appear virtually the same, but for the absence of a drawer pull.
FIG. 3 is an enlarged fragmentary view showing one of the corners of the table in greater detail.
