The ornamental design for an electronic component production assembly locater, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of an electronic component production assembly locater embodying my new design;

FIG. 2 is a side perspective view of the electronic component locater of FIG. 1;

FIG. 3 is a top plan view of the electronic component locater of FIG. 1;

FIG. 4 is a left side elevational view of the electronic component locater of FIG. 1;

FIG. 5 is a front elevational view of the electronic component locater of FIG. 1; and

FIG. 6 is a back elevational view of the electronic component locater of FIG. 1.

The right side elevational view of the electronic component locater of the present invention is completely analogous to the left side elevational view shown in FIG. 4.
