[57] CLAIM

The ornamental design for a combined vacuum curettage vessel and valve closure therefor, substantially as shown and described.

## DESCRIPTION

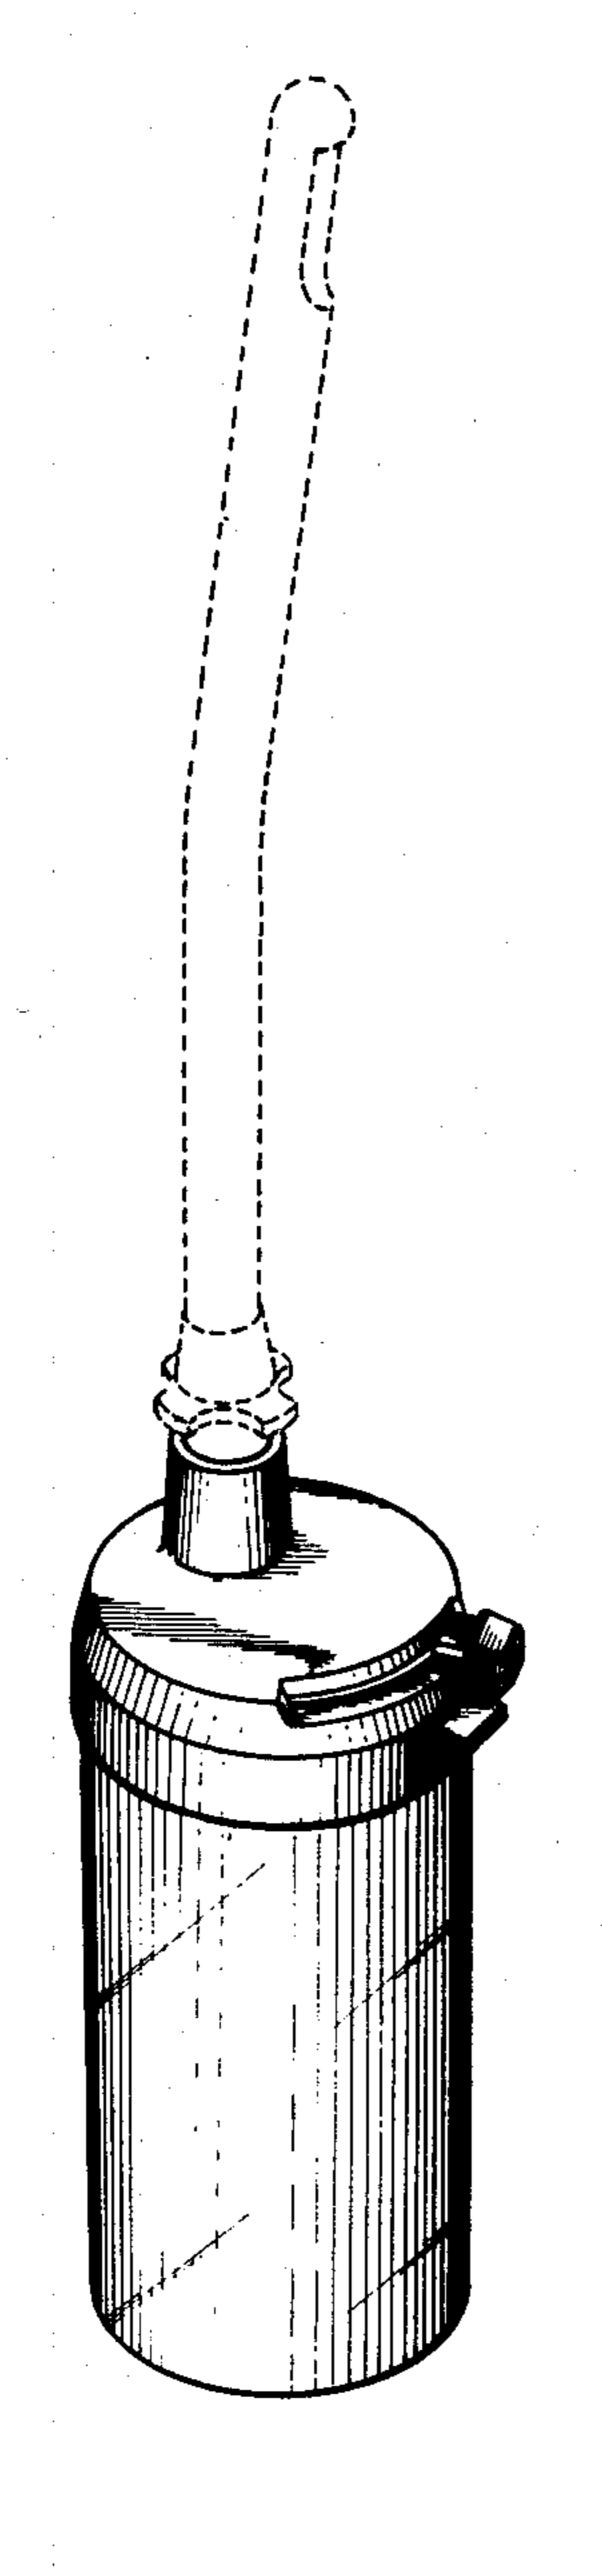

FIG. 1 is a front perspective view of a combined vacuum curettage vessel and valve closure therefor, showing our new design;

FIG. 2 is a top plan view thereof; FIG. 3 is a front elevation thereof;

FIG. 4 is a rear elevation thereof; FIG. 5 is a left elevation thereof; and

FIG. 6 is a right elevation thereof.

The broken lines representing the cannula element is shown for illustrative purposes only.
