FIG. 1 is a perspective view of a solar building according to my invention, and representing a view of what may form the front/side, rear/side, or vice versa, of such solar building, but which for ease of description will be designed as a front/side view. FIG. 2 is a plan view of the solar building of FIG. 1. FIG. 3 is a side elevation view of the solar building of FIG. 1, according to the illustrative convention adopted for FIG. 1. FIG. 4 is a front elevation view of the solar building according to adopted illustrative convention. FIG. 5 is a side elevation view opposite to that of FIG.
