[57] CLAIM

The ornamental design for a beam mold for casting concrete test specimens, as shown.

DESCRIPTION

FIG. 1 is a top plan view of the new and novel beam mold for casting concrete test specimens of the present invention;

FIG. 2 is a left side elevation of the beam mold of FIG. 1, the right side elevation being identical thereto, showing the new design of the present invention;

FIG. 3 is a bottom plan view of the beam mold of FIG. 1, showing the new design of the present invention;

FIG. 4 is a partial perspective view of the beam mold of FIG. 1, showing the new design of the present invention;

FIG. 5 is an exploded, perspective view of the beam mold of FIG. 1, showing the new design of the present invention.
