CLAIM

The ornamental design for a camper tie down, as shown and described.

DESCRIPTION

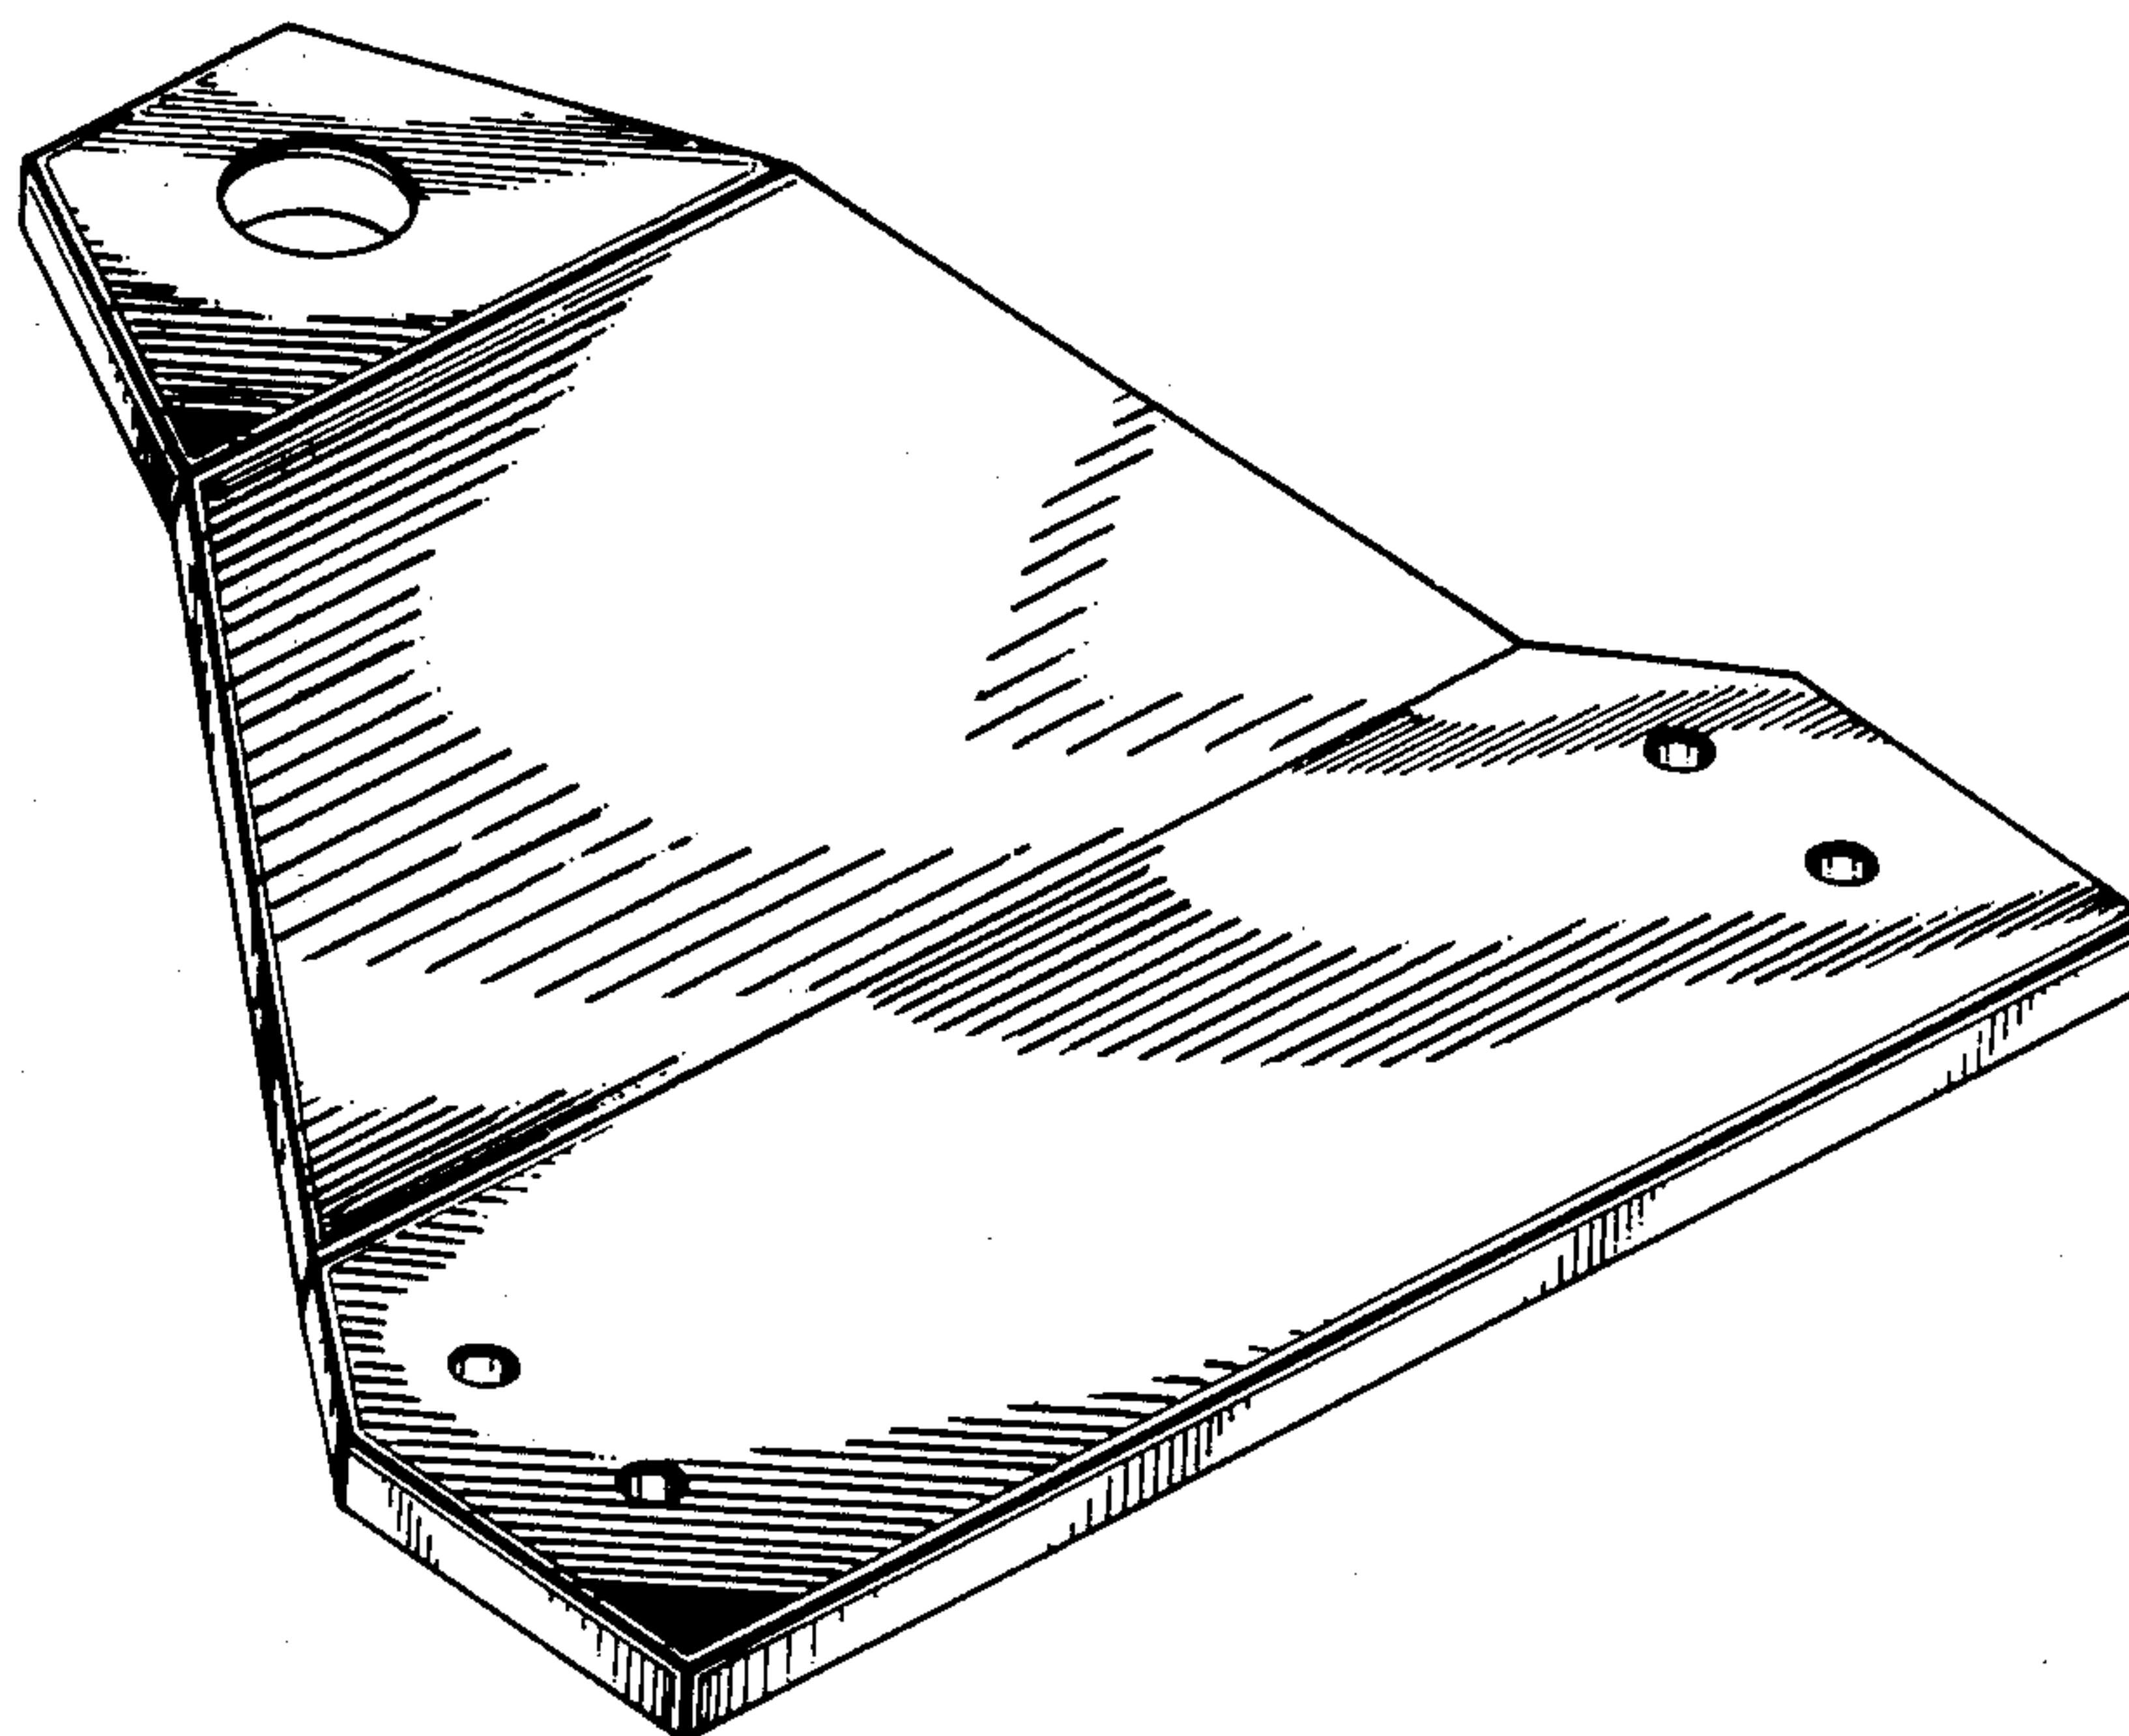

FIG. 1 is a front perspective view of a camper tie down showing my new design with the fragmentary portions of a truck shown in broken lines for illustrative purposes only;

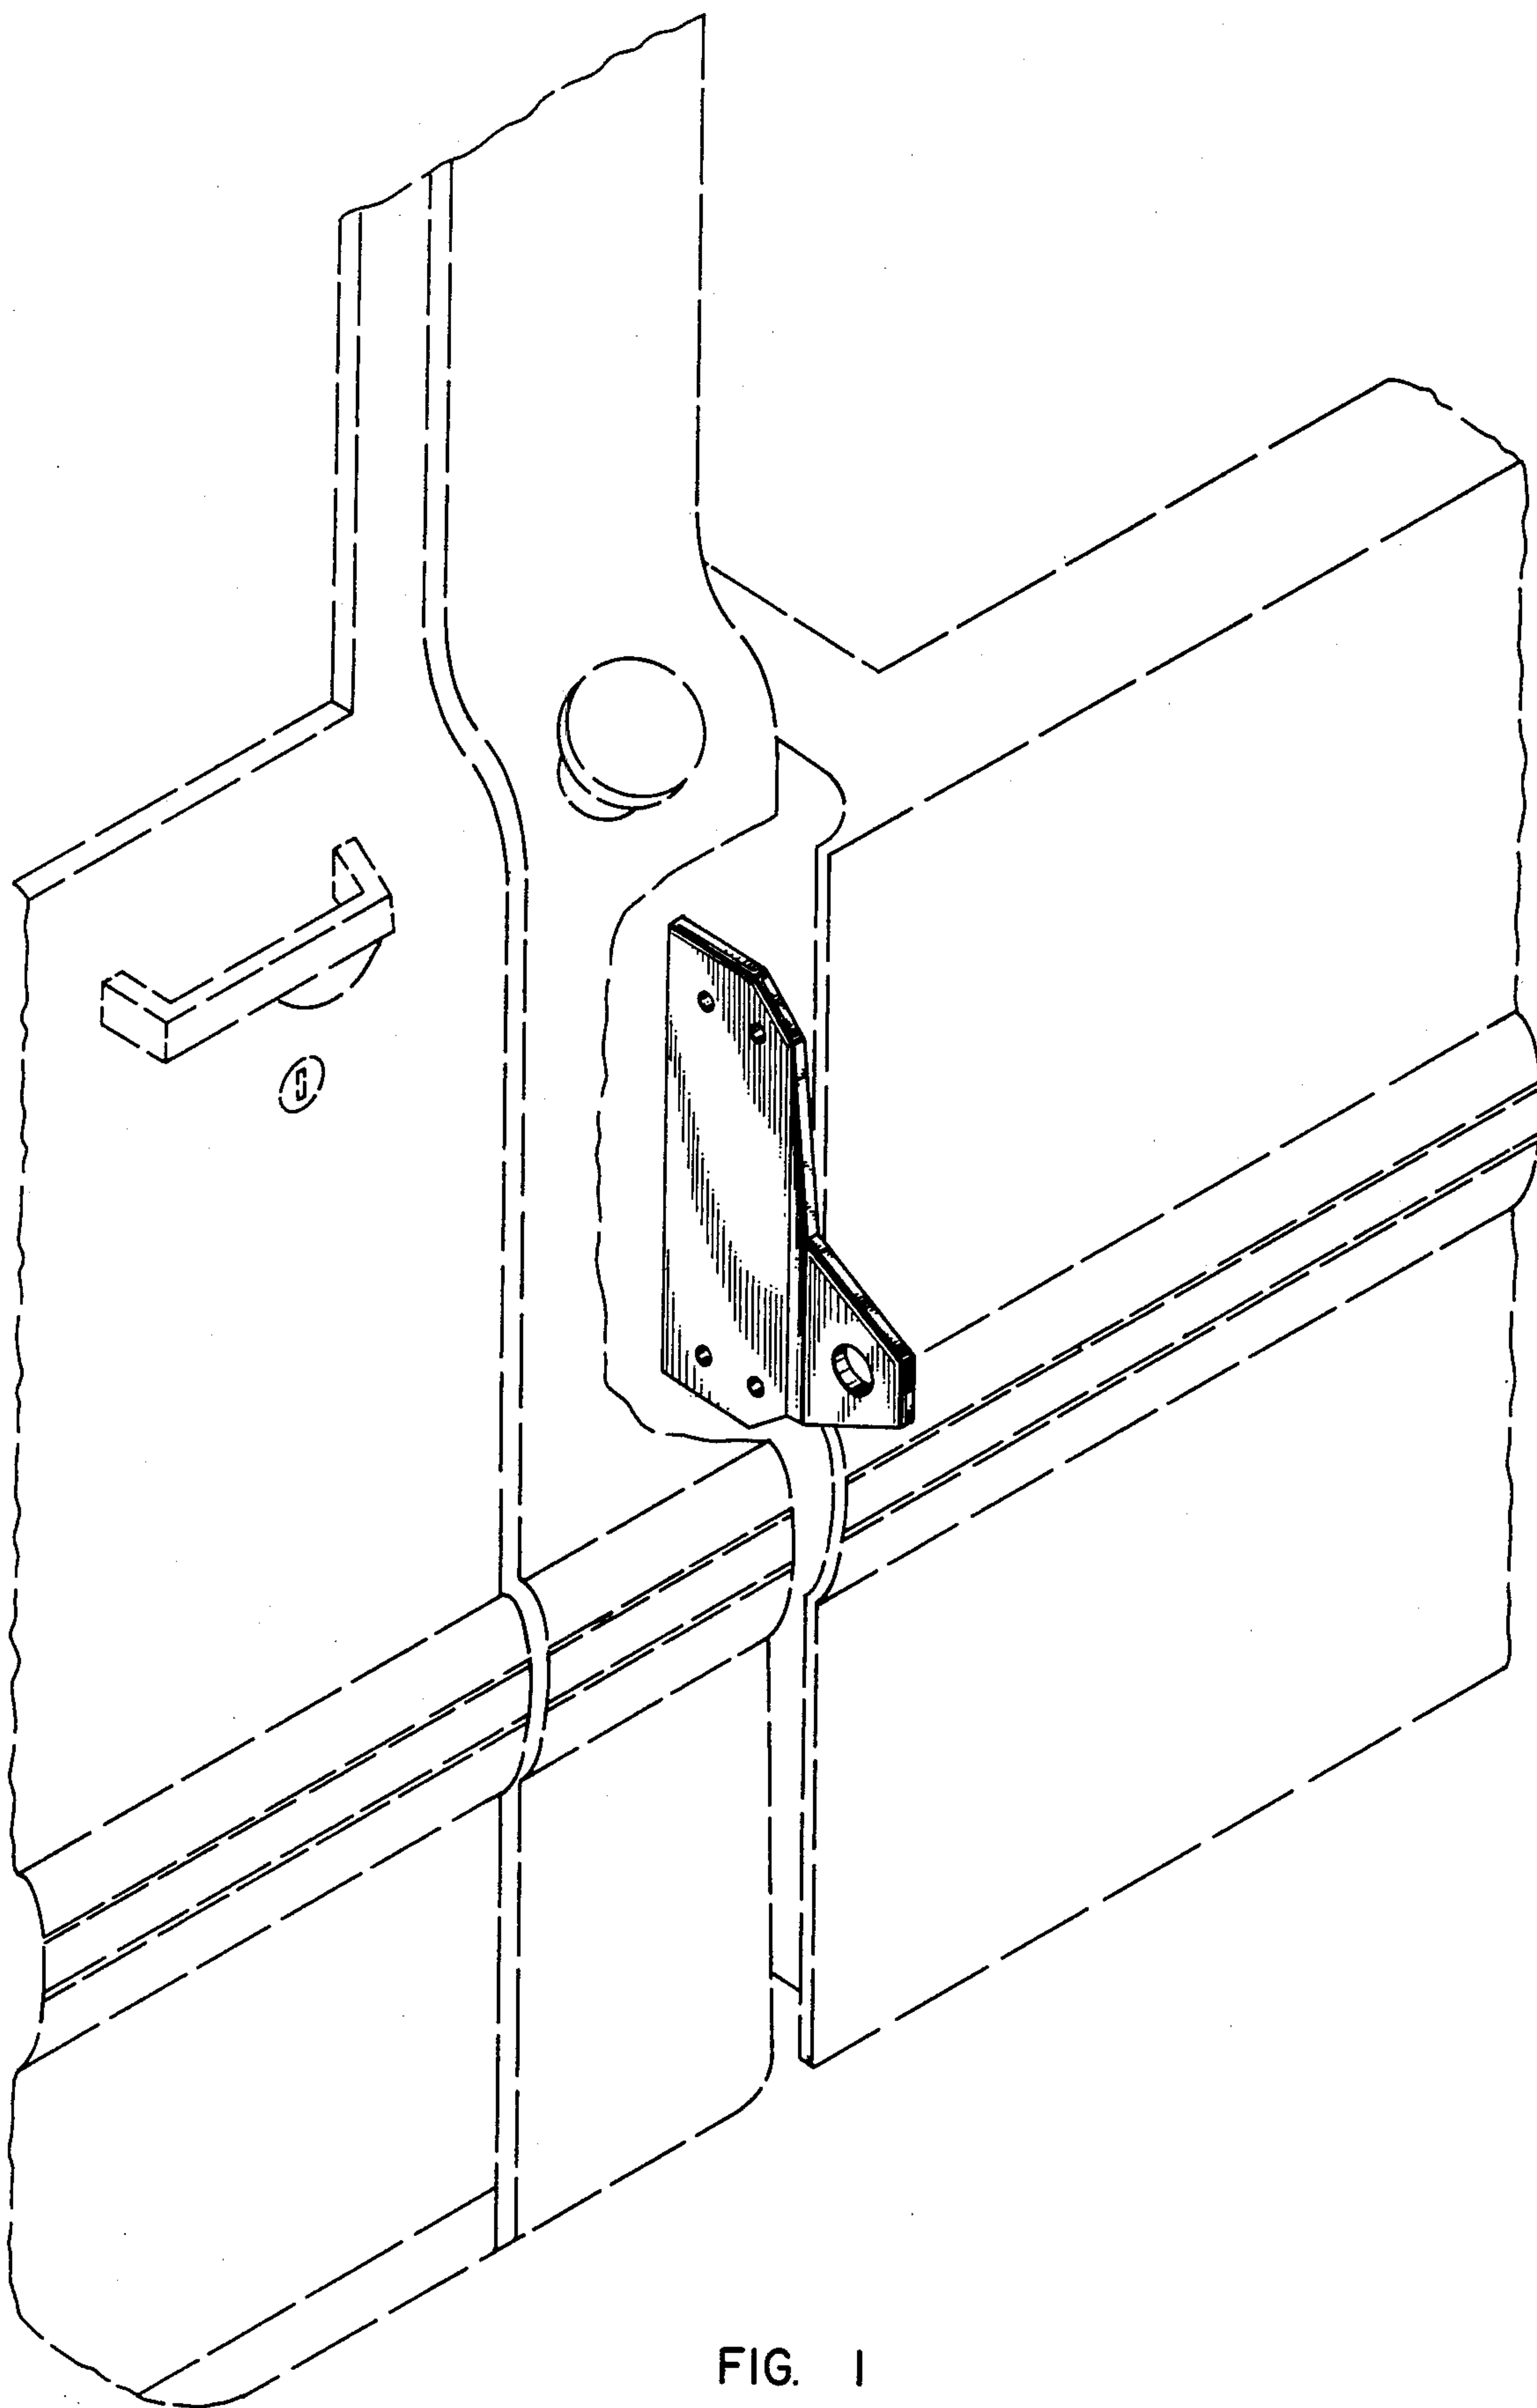

FIG. 2 is a top perspective view thereof;

FIG. 3 is a side elevational view thereof; and

FIG. 4 is a front elevational view thereof.

The design is characterized in that an aperture for receiving a tie down clasp is formed in the tapered end of the camper tie down and the tapered end is displaced outwardly and away from the mounting bracket portion so as to complement the structure of the truck box.
