[57] CLAIM

The ornamental design for a drive adaptor for sockets or the like, substantially as shown and described.

DESCRIPTION

FIG. 1 is a side perspective view from the left of a drive adaptor for sockets or the like showing my new design; FIG. 2 is a side perspective view from the right thereof; FIG. 3 is an end view showing the triangularly shaped end of the adaptor as shown in FIG. 1.

FIG. 4 is an end view of the socket end of the adaptor as is shown in FIG. 2.

The drive adaptor for sockets or the like, has been designed with a triangularly shaped end for insertion in a mechanical manipulating device, such as an electrically operated power drill, or the like, and an opposite end designed for insertion in a complementary socket, or the like.
