The ornamental design for a telephone station handset, substantially as shown and described.

DESCRIPTION

FIG. 1 is a bottom perspective view including the bottom, the transmitter end, and one side of a telephone handset in accordance with our new design; FIG. 2 is a bottom plan view thereof; FIG. 3 is a top plan view thereof; FIG. 4 is a side elevation view thereof, the opposite side elevation being essentially a mirror image of that illustration in FIG. 4; FIG. 5 is a transmitter end elevation view; and FIG. 6 is a receiver end elevation view.
