[57] **CLAIM**

The ornamental design for embossed plastic sheet material, substantially as shown and described.

DESCRIPTION

FIG. 1 is a plan view of embossed plastic sheet material showing my new design. A design unit is contained within the rectangle defined by dark lines. As shown, the design is repeated in vertical rows as indicated by extensions outside the defined rectangle, the design units of one vertical row being in an offset relationship with respect to the design units of adjacent vertical rows as indicated by the markings intermediate the side boundaries of the defined rectangle; and

FIG. 2 is an enlarged plan view of a portion of the design unit of FIG. 1 showing the embossment at substantially actual size.
