[57] CLAIM

The ornamental design for an electronic watch, substantially as shown.

DESCRIPTION

FIG. 1 is a top plan view of an electronic watch showing my new design, the bottom being conventional; FIG. 2 is a typical end elevational view thereof; and FIG. 3 is a section taken from FIG. 1 showing the star-like symbol on an enlarged scale.

The characteristic feature of my new design resides in the star-like symbol used to separate the conventionally arranged digital readout when same is in an activated condition, as best shown in FIG. 3, the watch portions being conventional in the art.
