[57] CLAIM

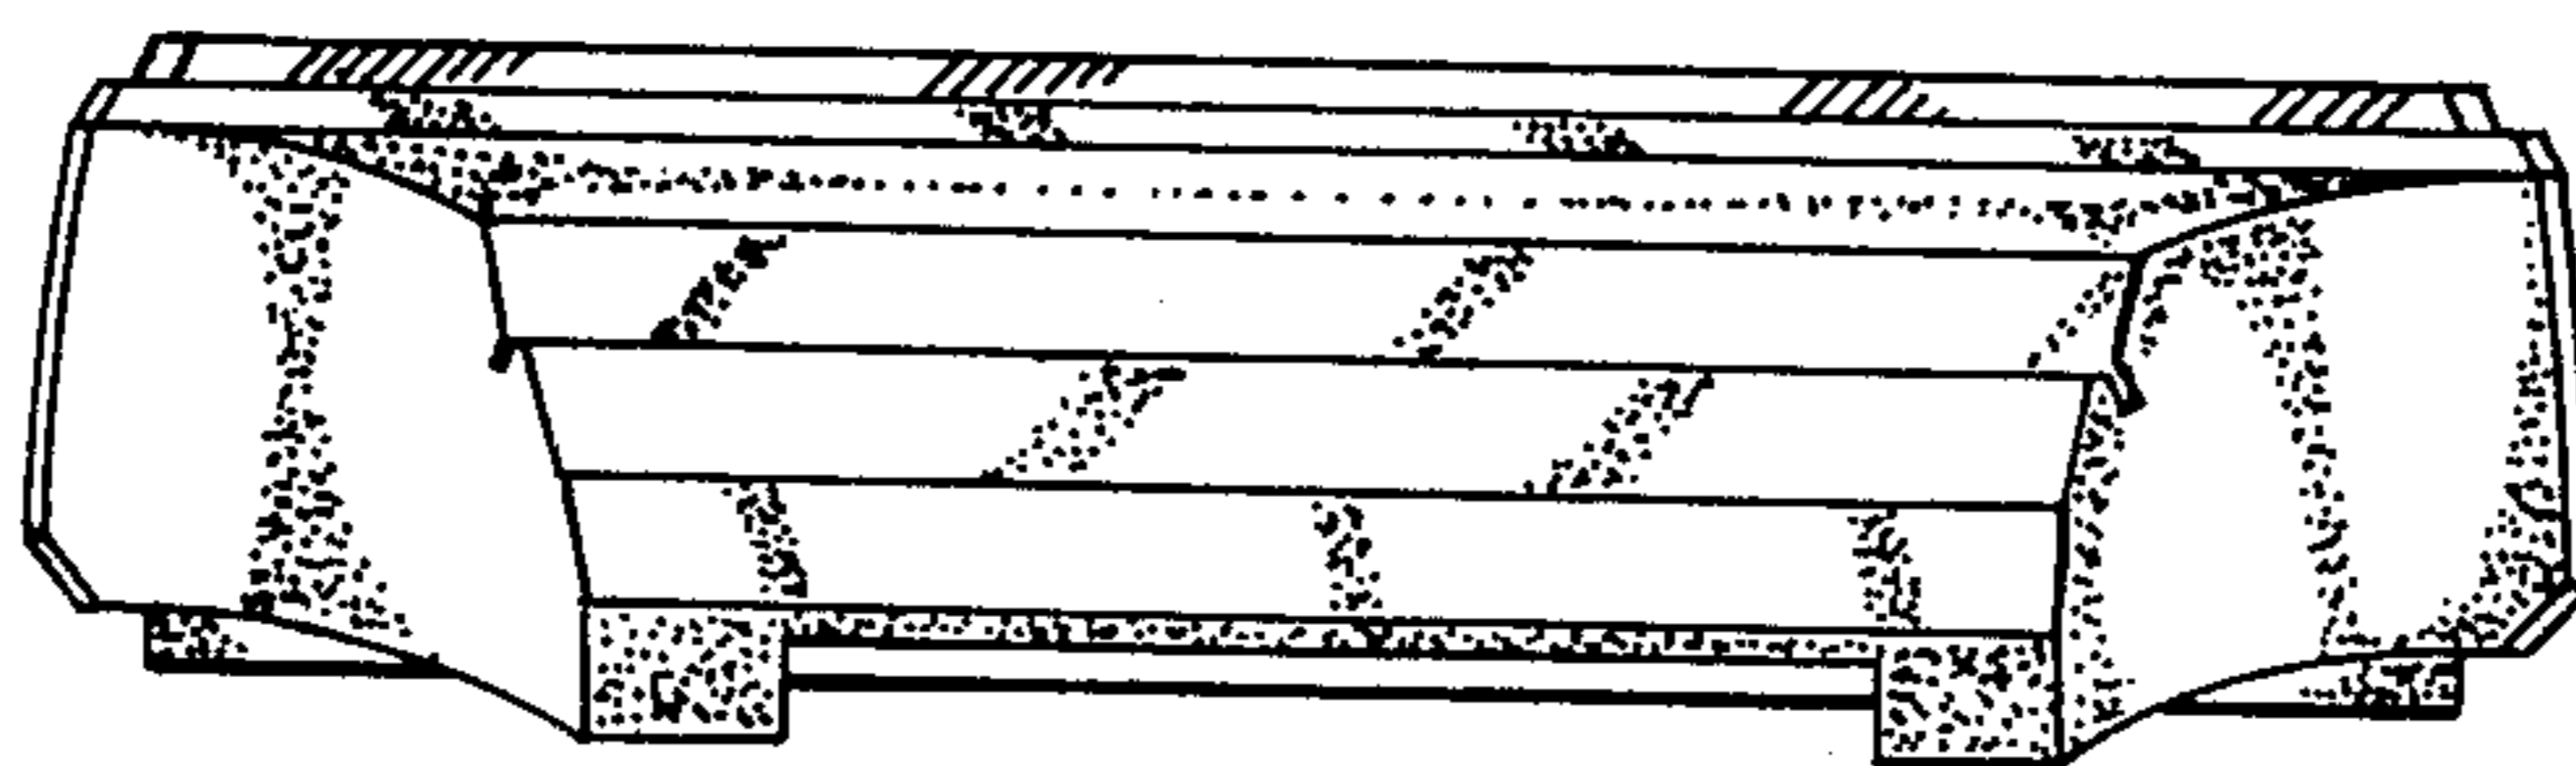

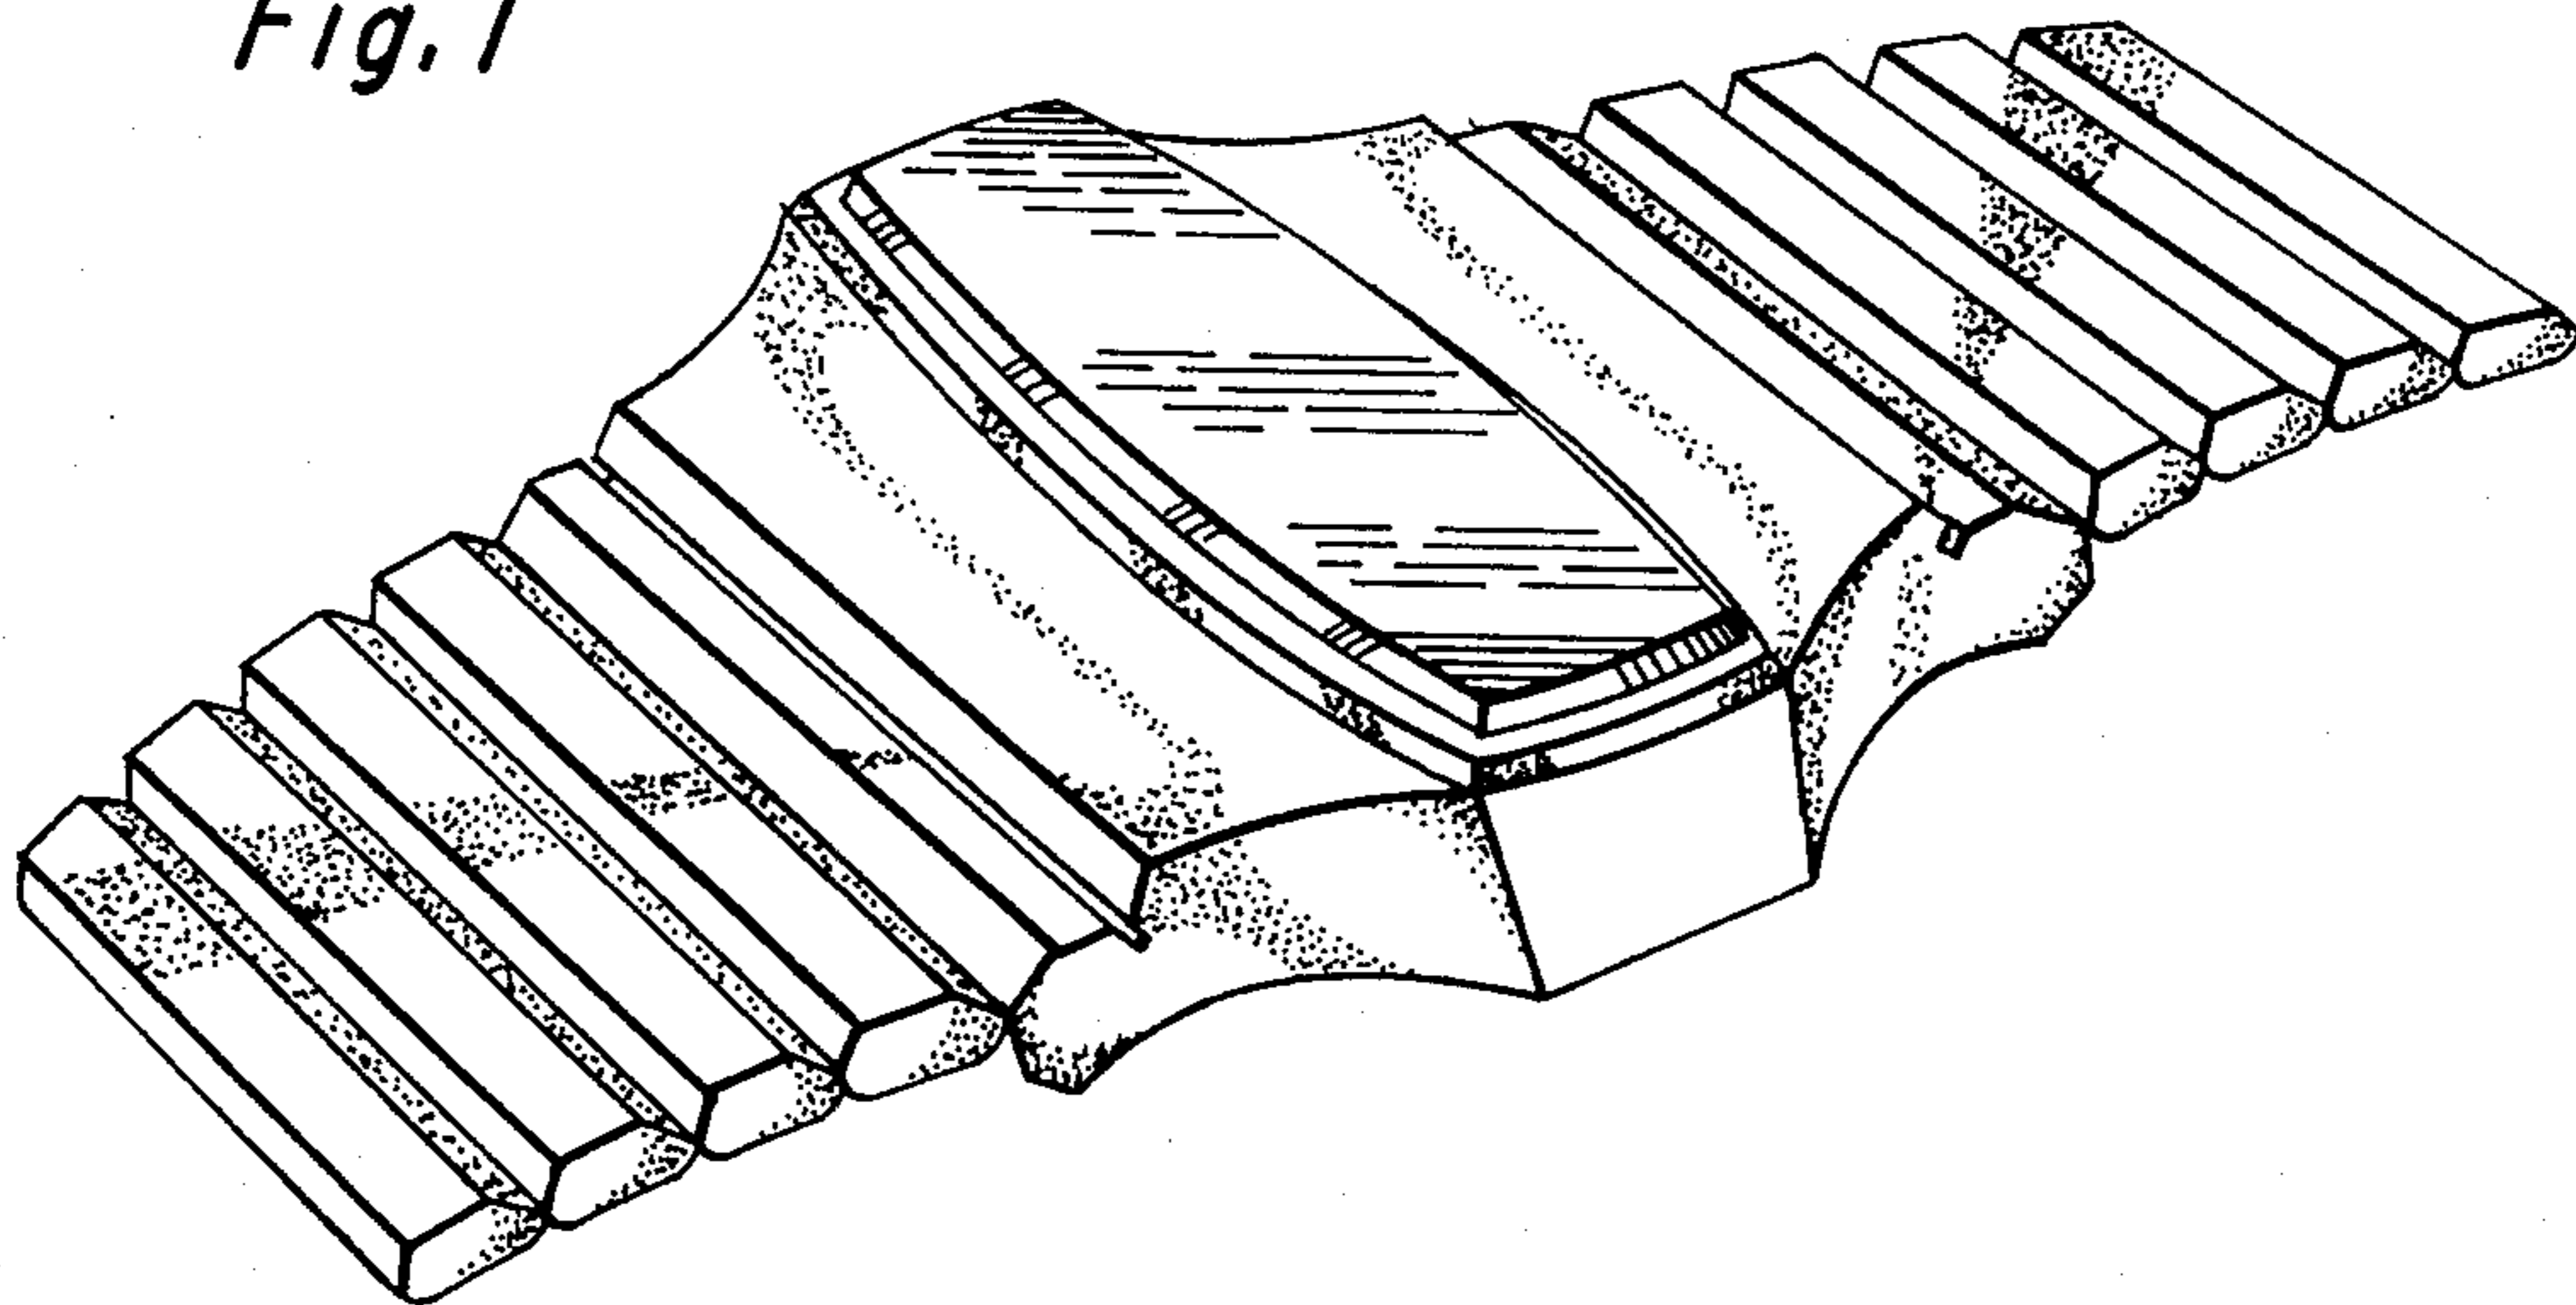

The ornamental design for a digital wrist watch substantially as shown and described.

DESCRIPTION

FIG. 1 is a top right perspective view of a digital wrist-watch showing my new design with typical coordinated band links, the number of links being variable as to specific wrist sizes;  
FIG. 2 is a typical end elevational view thereof with the links omitted for ease of illustration;  
FIG. 3 is a top plan view thereof with the links omitted, the bottom being plain and conventional;  
FIG. 4 is a typical side elevational view thereof with the links omitted; and  
FIG. 5 is a top right side perspective view of another embodiment of my new design of FIG. 1, wherein an actuator button has been added to the side of the watch-case, all other views being substantially like those of FIGS. 1-4.
