[57] **CLAIM**

The ornamental design for magnetic tape transport, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front, right side and top perspective view of a magnetic tape transport, showing our new design; FIG. 2 is a left side elevational view, with the cabinet portion of the transport in a different tilted position; and FIG. 3 is a rear elevational view of the transport tilted as in FIG. 2, the bottom surfaces of the transport being substantially plain and unornamented.
