[57] CLAIM

The ornamental design for a prefabricated sound barrier wall, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing the prefabricated sound barrier wall of the present invention installed adjacent to a roadway the plurality of dotted and broken lines are not part of the design sought to be patented but rather illustrate only vehicles traveling on the roadway as well as the environmental structure of the roadway itself, i.e., a center median and lane markers;

FIG. 2 is a perspective view broken at plural locations to show the overall shape and appearance of the barrier wall of FIG. 1;

FIG. 3 is a side elevation view showing the front side of the barrier wall of FIG. 1, the back side of the barrier wall being identical in appearance;

FIG. 4 is a sectional view taken at lines 4-4 of FIG. 3 to better illustrate the outward configuration of the barrier wall; and

FIG. 5 is an end elevation view of the barrier wall of FIG. 1, the alternate end of the barrier wall being identical in configuration.

FIG. 1.

FIG. 2.

FIG. 4.

FIG. 3.

FIG. 5.
