[57] CLAIM

The ornamental design for a bicycle pedal, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of one end of a bicycle pedal showing our new design.

FIG. 2 is a top perspective view of the opposite end thereof.

FIG. 3 is an elevational view of the side shown in FIG. 1.

FIG. 4 is an elevational view of the left end of FIG. 1.

FIG. 5 is an elevational view of the left end of FIG. 2.

FIG. 6 is a sectional view taken on line 6-6 of FIG. 3. The bottom of the bicycle pedal is substantially a mirror image of the top shown in FIGS. 1 and 2.

The characteristic feature of our design resides in the pedal blocks which completely circumscribe the elongate reflective surfaces on the sides of the pedal.
