[57] **CLAIM**

The ornamental design for a corner insulator for electric fences, substantially as shown.

DESCRIPTION

FIG. **1** is a perspective view of a corner insulator for electric fences embodying our new design, the insulator being shown in its latched or closed condition;
FIG. **2** is a perspective view of our insulator taken in the same direction as in FIG. **1** but with the insulator unlatched or open;
FIG. **3** is an elevational view of the side shown in FIG. **1**, the opposite side being a mirror image thereof;
FIG. **4** is a top plan view thereof;
FIG. **5** is an end elevational view taken from the left in FIG. **3**;
FIG. **6** is an end elevational view taken from the right in FIG. **3**;
FIG. **7** is a bottom plan view of our insulator;
FIG. **8** is an end view corresponding to FIG. **5** but with the insulator unlatched or open as shown in FIG. **2**; and
FIG. **9** is a perspective view of our insulator showing the side opposite that shown in FIGS. **1**, **2** and **3**.
