[57] CLAIM

The ornamental design for a link chain support post, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view showing my new design, the rear being identical to the front with a post cap shown in broken lines for environmental purposes and not part of the design sought to be patented.

FIG. 2 is a side elevational view thereof, the opposite side with a post cap shown in broken lines for environmental purposes and not part of the design sought to be patented.

FIG. 3 is a cross-sectional view taken on line 3—3 of FIG. 1.

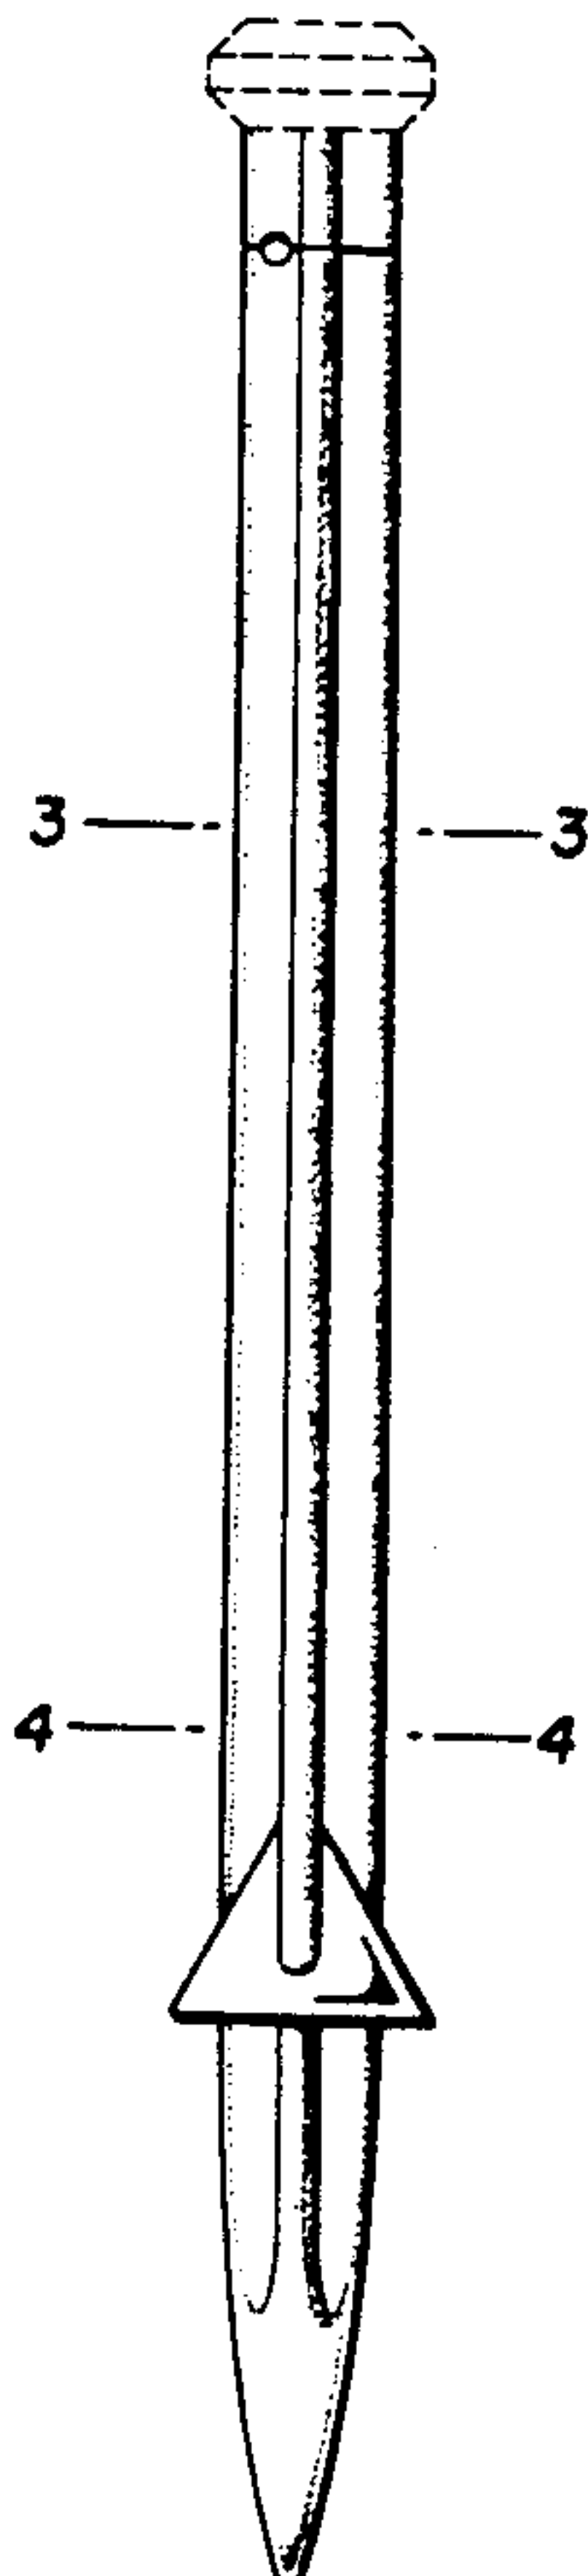

FIG. 4 is a cross-sectional view taken on lines 4—4 of FIG. 1, looking downwardly.

FIG. 5 is a bottom view thereof.

FIG. 6 is a front elevational view of a modification having a modified lower end, the rear view being identical.

FIG. 7 is a side elevational view of the modification of FIG. 6, the opposite side being identical.

FIG. 8 is a bottom view of the modification of FIG. 6. The characteristic features of my design resides in the conical appearance of the floor flange in conjunction with the X-shaped post member.
