[57] CLAIM

The ornamental design for an electrode assembly, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the electrode assembly showing our new design.

FIG. 2 is a sectional view taken substantially along line 2—2 of FIG. 1.

FIG. 3 is a sectional view taken substantially along line 3—3 of FIG. 1.

FIG. 4 is a front elevational view of a larger embodiment of the electrode assembly according to FIG. 1.

The cross hatching in FIGS. 1 and 4 is partially shown for convenience of illustration, it being understood that the cross hatching is uniformly continuous over the entire surface of the areas on which it appears. The rear view of FIG. 1 is a mirror image of FIG. 1 and otherwise identical in every detail.

Fig. 4
