[57] CLAIM

The ornamental design for a flatware cabinet, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a flatware cabinet showing my new design;

FIG. 2 is a plan view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a view taken along line 5-5 of FIG. 4 showing one embodiment of my cabinet design with the front door removed for convenience of illustration;

FIG. 6 is a cross-sectional view taken along line 6-6 of FIG. 1;

FIG. 7 is a view similar to FIG. 5 showing an alternate embodiment of my cabinet design;

FIG. 8 is a cross-sectional view similar to FIG. 6 showing the alternate embodiment of FIG. 7.

FIG. 9 is a front perspective view of the cabinet form as shown in FIG. 5; and

FIG. 10 is a front perspective view of the cabinet form as shown in FIG. 7.

The undisclosed rear of the cabinets of this invention is conventionally flat and unornamented.
