[57] CLAIM

The ornamental design for a display unit for eyeglass frames, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the display unit for eyeglass frames embodying my new design, the alternation of columns and panels on the top and large and small panels on the base is repeated on the side opposite that shown;

FIG. 2 is a top plan view of FIG. 1;

FIG. 3 is a fragmentary perspective view of a second embodiment of the design of FIG. 1, the only difference being the inclusion of mirrors centrally placed on the panels between the columns, said mirrors being the same length as the columns;

FIG. 4 is a fragmentary perspective view of a third embodiment of the design of FIG. 1, the only difference being the addition of rectangular depressions which extend uniformly along the sides of the columns;

FIG. 5 is a fragmentary perspective view of a fourth embodiment of the design of FIG. 1, the only differences being the inclusion of mirrors centrally placed on the panels between the columns, said mirrors being the same length as the columns; and the addition of rectangular depressions which extend uniformly along the sides of the columns;

FIG. 6 is a bottom plan view of FIG. 1.
