[57] CLAIM

The ornamental design for a cover for television receiver rear picture controls or the like, as shown and described.

DESCRIPTION

FIG. 1 is a front, top and left side perspective view of a cover for television receiver rear picture controls or the like showing my design, the broken line showing of a television receiver being for purposes of illustration only and structure which would be seen through the transparent surfaces omitted for convenience of illustration;

FIG. 2 is a top plan view;

FIG. 3 is a front elevational view;

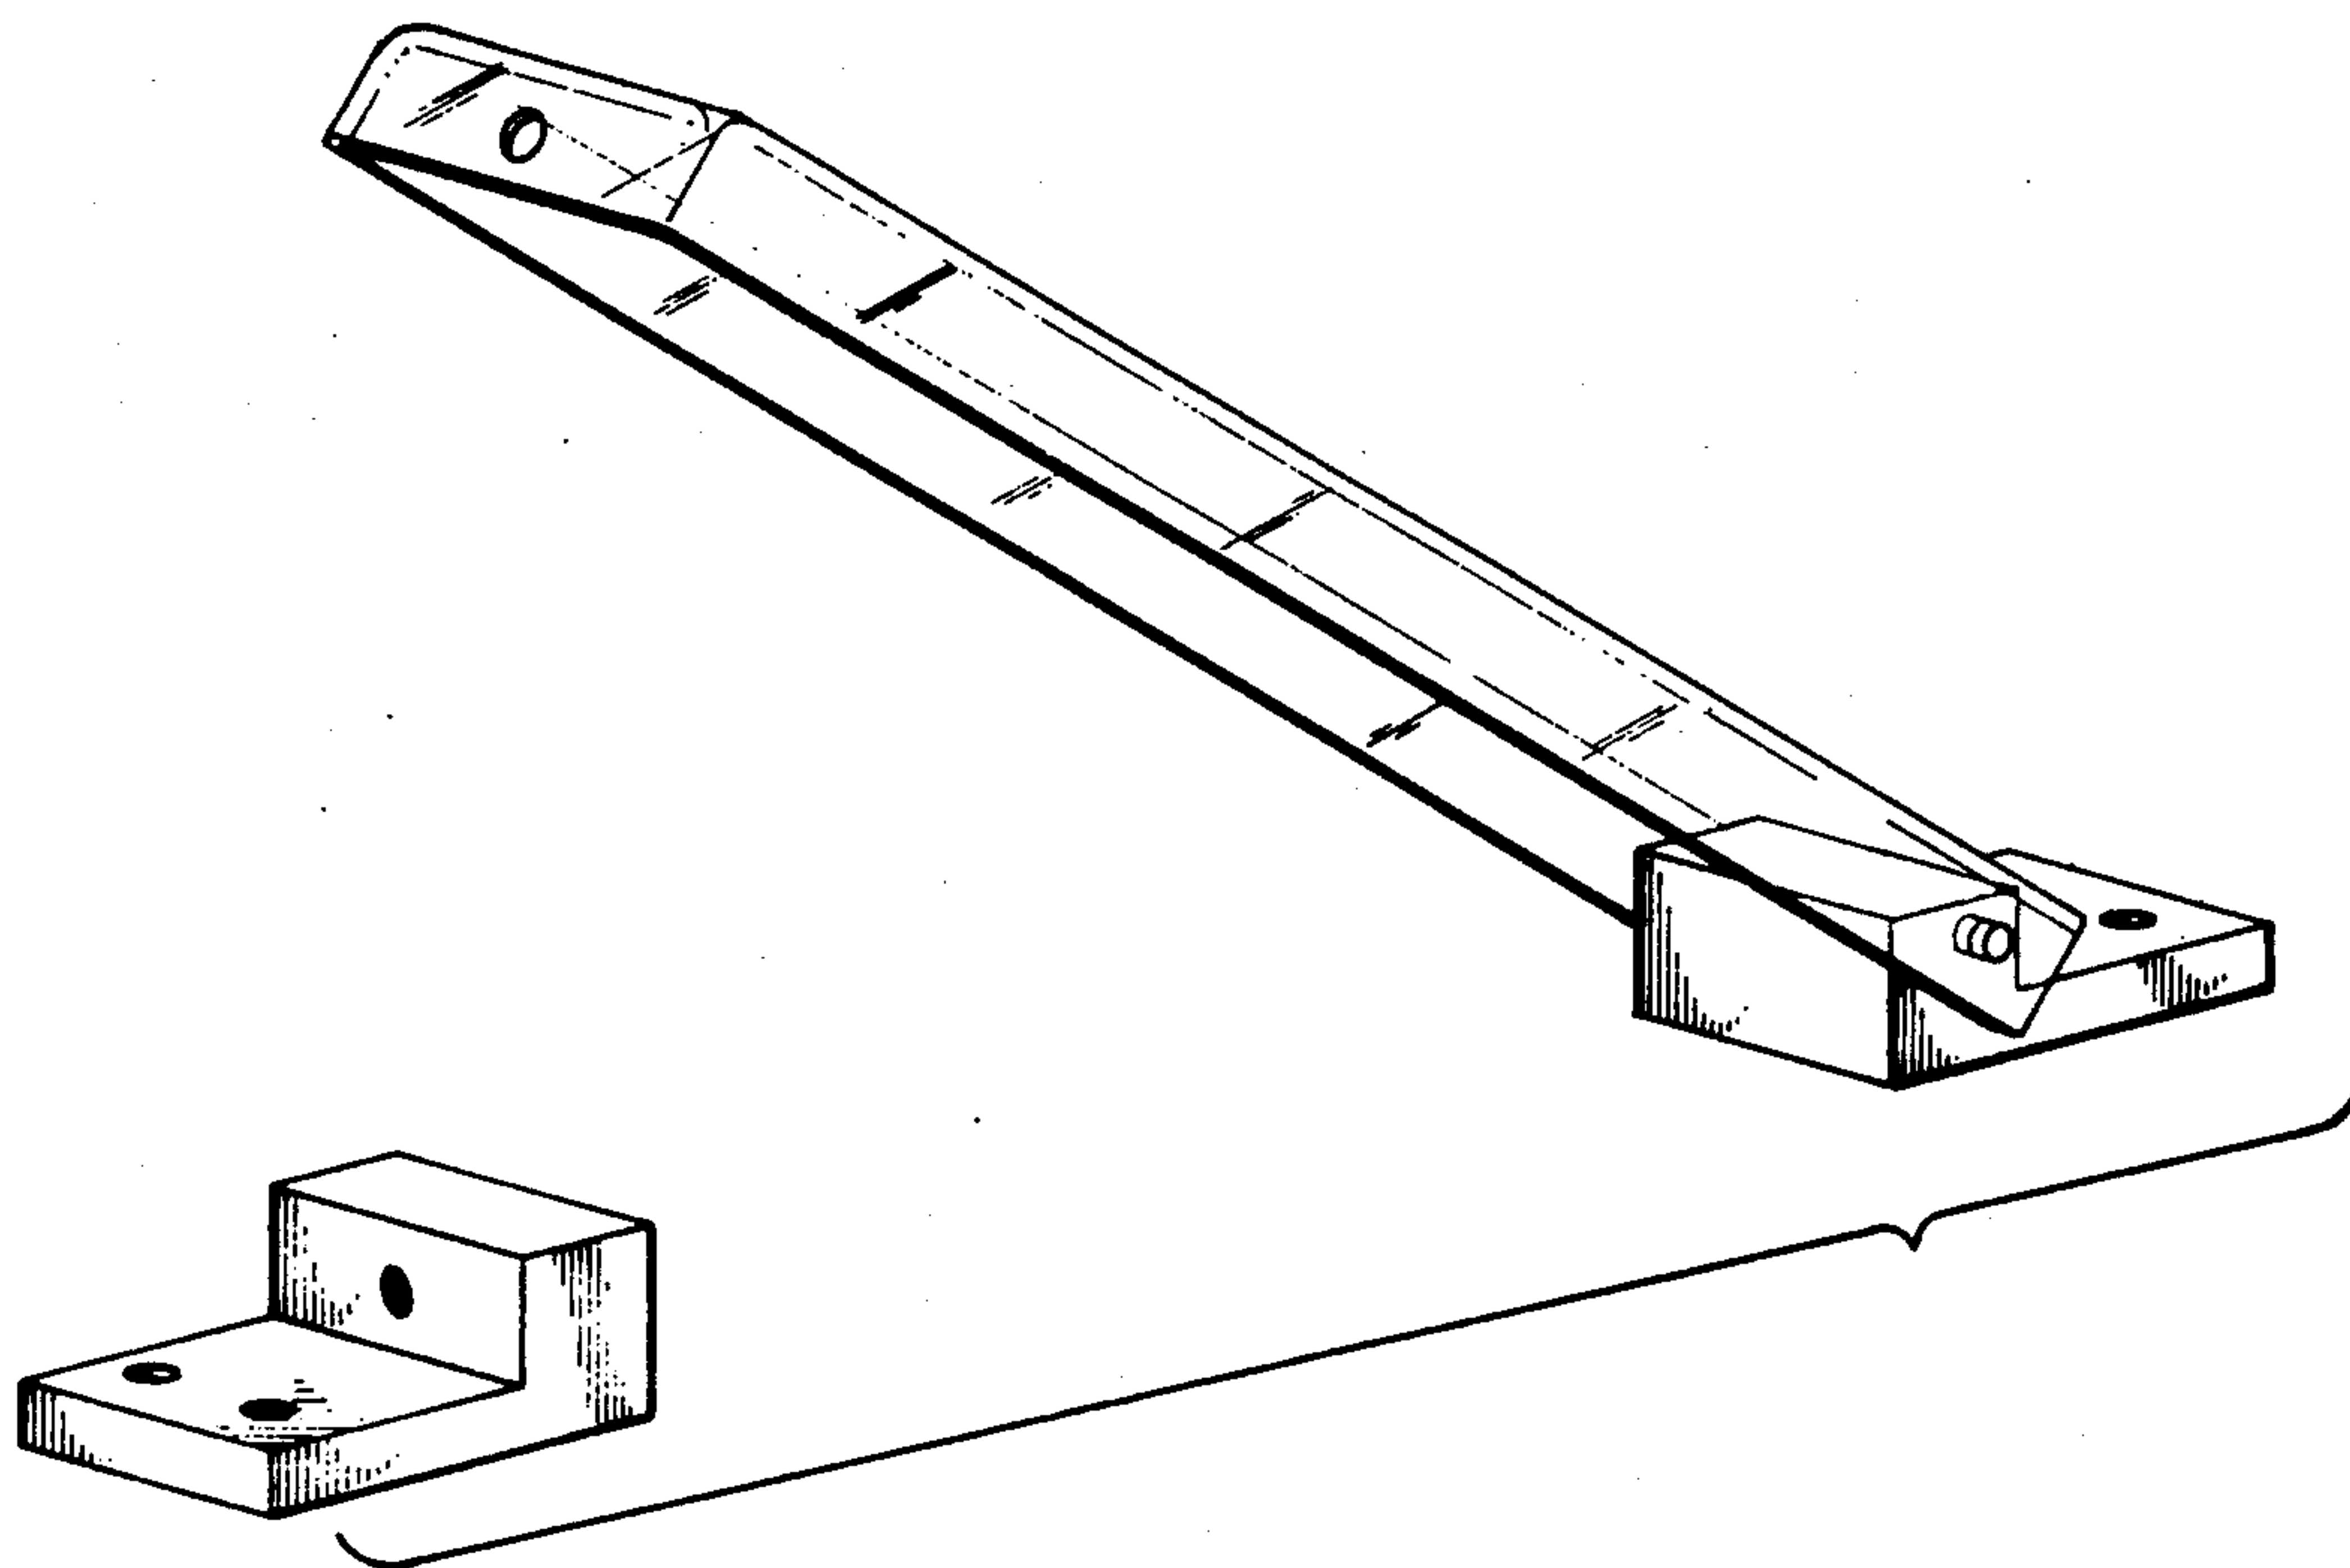

FIG. 4 is a sectional view taken along line 4—4 of FIG. 3;

FIG. 5 is a rear elevational view;

FIG. 6 is a left side elevational view;

FIG. 7 is a right side elevational view; and

FIG. 8 is a front, top and left side perspective view showing the cover in raised position and with the screw removed.
