**CLAIM** 

The ornamental design for a control panel for a fire control combat simulator, substantially as shown and described.

## **DESCRIPTION**

FIG. 1 is a perspective view illustrating in solid lines one embodiment of our control panel for a fire control combat simulator. The broken lines illustrate a cabinet containing said control panel, said cabinet being environmental structure shown for illustrative purposes only.

FIG. 2 is a front view of the control panel of FIG. 1 on an enlarged scale.

FIG. 3 is a front view of a second embodiment of our control panel.
