## [57] CLAIM

The ornamental design for a dispenser for dried foods or the like, substantially as shown and described.

## DESCRIPTION

FIG. 1 is a front elevational view of a dispenser for dried foods or the like showing my new design;

FIG. 2 is a front perspective view thereof with the food canisters omitted for convenience of illustration;

FIG. 3 is a top plan view thereof;

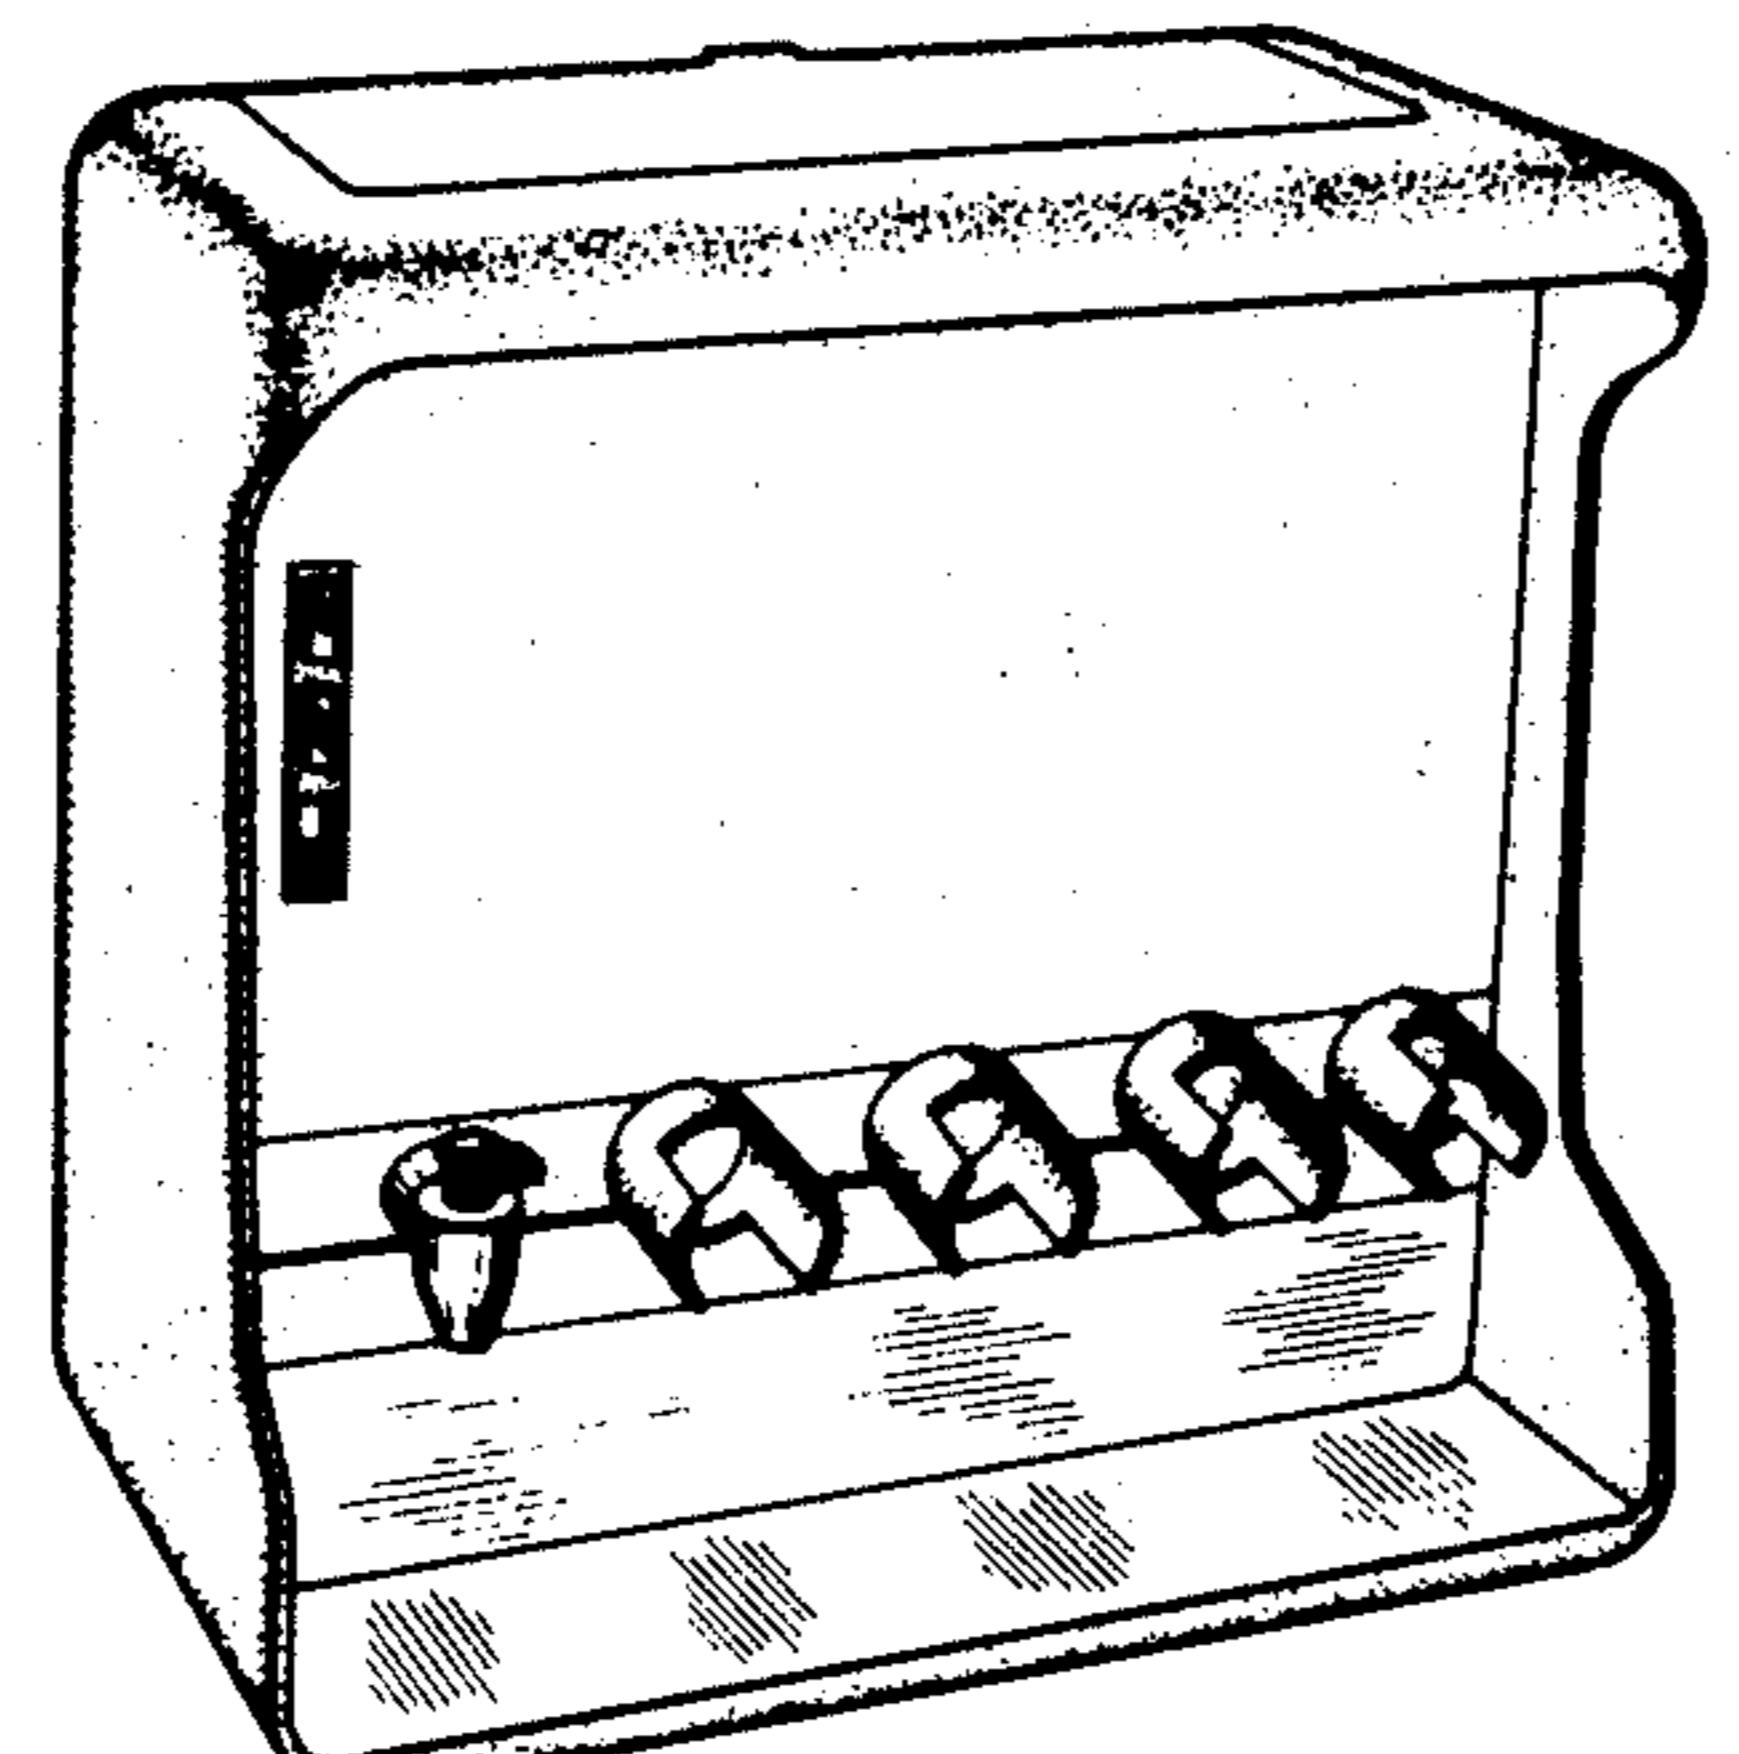

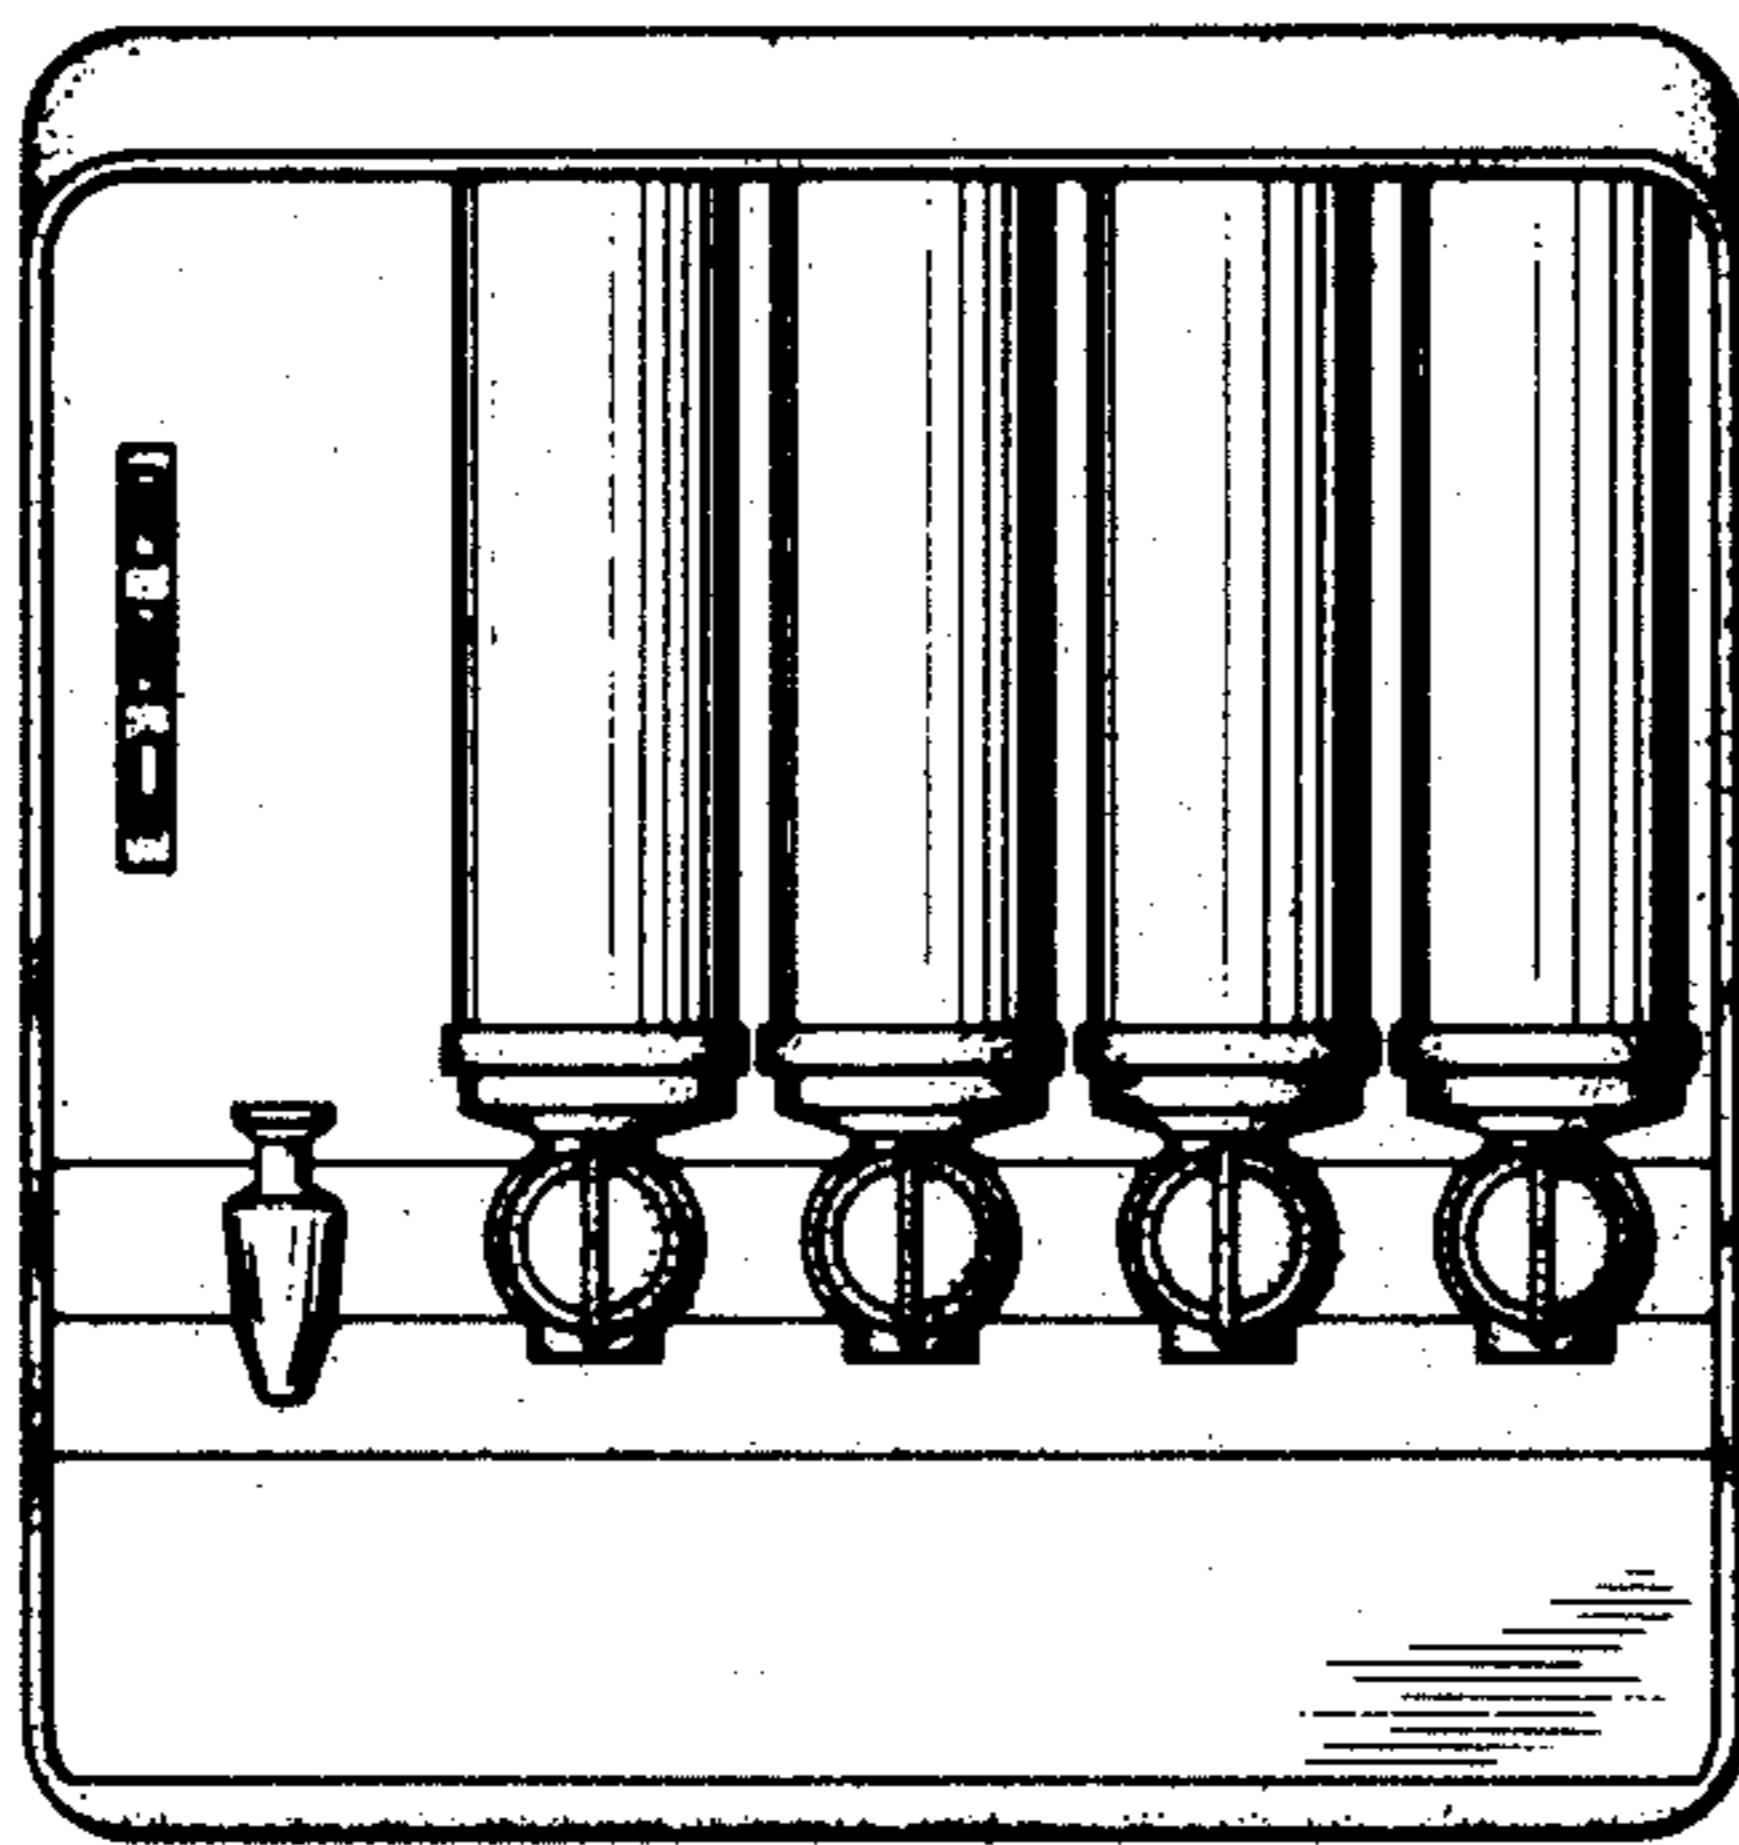

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a front elevational view of a food canister of FIG. 1 on an enlarged scale;

FIG. 6 is a left side elevational view of the food canister of FIG. 5; and

FIG. 7 is a bottom plan view of the food canister of FIG. 5.

The left side of the dispenser is similar to and contains the same design features as the right side thereof, and the back and bottom of the dispenser are plain and unornamented. The right side of the food canister is similar to and contains the same design features as the left side thereof, and the top of the canister is plain and unornamented.
